Proposed New Uses and / or Uses to be Withdrawn from the Label

In this form, there are several rows that allow you to input for multiple Sites of Use and Pests. For each Site of Use, please use a separate row. However, for each Site of Use, you can list multiple pests.

◉ New	○ Withdrawn	Site of Use	Health Care institutions
		Pests	Each and every microorganism has a reported UVC (254 nm wavelength) susceptibility value. This value is used to determine the required UVC dosage for the desired disinfection level. The UVC dosage being the product of UVC source intensity (power per unit area) and
