#### DIRECTIONS FOR USE:

To be used only in the manufacture of a pesticide which is registered under the *Pest Control Products Act*.

#### PRECAUTIONS: PREVENT ACCESS BY UNAUTHORIZED

PERSONNEL. Do not get in eyes, on skin, or on clothing. Do not breathe vapours. At standard temperature and pressure anhydrous ammonia is in gaseous form. As a gas, anhydrous ammonia reacts on contact with moisture in the skin and mucous membranes to become corrosive to body tissues. May cause severe eye irritation with corneal injury and permanent vision impairment. Contact may cause severe skin irritation, chemical burns, and blistering. Contact with vaporizing liquid may cause frostbite due to rapid evaporative cooling. Cooling effect may mask the extent of corrosion injury received. Irritating to entire respiratory tract. Excessive overexposure may cause severe irritation to the upper respiratory tract and potential lung damage.

Wear a mask or an approved pesticide respirator. Wash contaminated clothing before reuse. Wash thoroughly with soap and water after handling and before eating or smoking.

#### FIRST AID:

**IF SWALLOWED:** Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

**IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice.

**IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

#### ENVIRONMENTAL HAZARDS:

This product is toxic to fish and other aquatic organisms. Do not contaminate aquatic habitats, such as lakes, rivers, sloughs, ponds, prairie potholes, creeks, marshes, streams, reservoirs, and wetlands, when cleaning and rinsing equipment or containers.

#### DISPOSAL:

Canadian manufacturers should dispose of unwanted active ingredients and containers in accordance with municipal or provincial regulations. For additional details and clean-up of spills, contact the manufacturer or the provincial regulatory agency.

**STORAGE:**

Ground all equipment. Keep away from combustible materials, heat and incompatible materials, especially dry or liquid bleach, and oxidizing and reducing agents, metals and acids. Ensure facilities are well-maintained and emergency response and first aid equipment is readily available. Always ensure there is a nearby source of water for first aid purposes and spill response.

**NOTICE TO USER:**

This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.
