KEEP OUT OF REACH OF CHILDREN AND UNAUTHORIZED PERSONNEL

**BRUSHING GRADE  
CREOSOTE  
WOOD PRESERVATIVE**

**COMMERCIAL**

READ THE LABEL BEFORE USING  
**REGISTRATION No. 28076 PEST CONTROL PRODUCTS ACT**

**HARMFUL OR FATAL IF SWALLOWED  
DANGER  
POISON CORRIVE  
IRRITANT TO EYES AND SKIN SENSITIZER**

ACTIVE INGREDIENT 100% CREOSOTE

NET CONTENTS: 225 kgs drum  
20,000 To 40,000 kgs tank truck  
70,000 To 80,000 kgs tank car

**DIRECTIONS FOR USE:**

**BRUSH APPLICATION:** Apply two coats with fibre brush. One litre will treat approximately 5m<sup>2</sup>/coat depending upon type of surface. Stir well – do not dilute.

An excellent penetrating preservative for prolonging the life of wood exposed to weather and preserving it from the effects of rot, decay and termites. Excellent for newly cut surfaces of pressure-treated creosote timbers and lumber for piers or pilings. maximum penetration is obtained on properly seasoned lumber with bark removed and surface dry before treatment. Do not apply to wood which has a wet, frosted or frozen surface. Shape and size wood to final dimension prior treatment.

**FOR EXTERIOR USE ONLY**

**PRECAUTIONS:** KEEP OUT OF REACH OF CHILDREN AND UNAUTHORIZED PERSONNEL. Toxic if swallowed or inhaled. May cause severe skin or eye irritation. Avoid contact with skin, eyes and clothing. Frequent or prolonged contact with skin may cause pigmentation, blistering, skin irritation. These effects may be aggravated when exposure to creosote vapours or liquid occurs on skin exposed to sunlight. Do not smoke when using. Do not use near plants. This product is toxic to fish. Do not contaminate water by cleaning of equipment or disposal of wastes.

Wash thoroughly after skin contact before eating, drinking, use of tobacco products or using restrooms.

Protective clothing must be changed when it shows sign of contamination.

**WASH WORK CLOTHING SEPARATELY FROM HOUSEHOLD LAUNDRY**

Avoid inhaling vapours.

**DO NOT BURN UNUSED PORTIONS OF TREATED WOOD.**

**PERSONAL PROTECTIVE EQUIPMENT:** Wear chemical resistant gloves when handling product or treated wood. Wear the following protective equipment when applying this product:

1. Applicators must wear gloves impervious to the wood treated formulation in all situations where dermal contact is expected. Persons with sensitive skin should apply barrier creams or sunscreens to uncovered areas of the skin where contact is likely to occur.
2. Coveralls, headgear and impermeable apron when applying this product.
3. Wear eye protection (goggles).
4. Chemical-resistant boots,

5. Avoid inhaling vapours. If inhalation of vapours at concentrations higher than the acceptable TWA-TLV cannot be avoided, wear a respirator approved for polynuclear aromatics and organic vapours.

**NOTE:** Protective clothing made from the following materials have been found to be impermeable to creosote: polyvinyl acetate, polyvinyl chloride, neoprene and NBR (BUNA-N)

**FIRST AID:** Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

**EYE CONTACT:**

Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

**SKIN OR CLOTHING CONTACT:**

Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice.

**INHALATION:**

Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

**IF SWALLOWED:**

Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

**TOXICOLOGICAL INFORMATION:** Treat symptomatically.

**DISPOSAL:**

1. Follow provincial instructions for any required additional cleaning of the container prior to its disposal.
2. Make the empty container unsuitable for further use.
3. Dispose of the container in accordance with provincial requirements.
4. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

**NOTICE TO USER:** This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.

In addition to complying with the mandatory use direction on the label, guidance for plant operations may be obtained by reference to the Environment Canada document: "Recommendations for the Design and Operations of Wood Preservation Facilities." For further information on storage, handling and disposal of treated wood, contact the manufacturer of this product or the provincial regulatory agency.
