Sentinel is a very active compound, which is used at low rates. It also has a low level mammalian toxicity. Sentinel provides fast knockdown and residual control of houseflies and stable flies in beef and dairy barns, hog barns and poultry houses.

DIRECTIONS FOR USE

Conventional or pressure sprayers

Apply Sentinel at the rate of 100mL of product per 100 square meters (1 bottle treats 500 square meters) in sufficient water to obtain thorough coverage. The amount of water required will vary depending on the type of surface to be treated.

Steps to Take When Applying Sentinel

1. Measure the area of the surfaces to be treated including walls, ceilings, beams and the outside of feed bunks, etc.
2. Apply one tankful of water only, spraying to the point of run-off to determine the area sprayed per tank.
3. Add the required amount of Sentinel to the tank to apply at the above rate. For example if one tankful covers 70 square meters, add 70mL of Sentinel to the tank.
4. Spray all inside surfaces of the barn including calf pens, etc. Do not spray only selected areas, such as around windows.

Note

Spray should be directed to walls, ceilings, stalls, stanchions, etc. Good sanitation is essential for good fly control, including elimination of fly breeding sites.

PRECAUTIONS

KEEP OUT OF REACH OF CHILDREN. Keep in original container during storage. Handle and apply only as recommended. Do not apply directly to animals or poultry. Do not apply as a space treatment. Do not contaminate or store with feed or foodstuffs, milk or milk-handling equipment. This product is very toxic to fish. Do not contaminate any source of water. Harmful if swallowed. Corrosive. Do not get in eyes, on skin, or on clothing. Avoid breathing vapour or mist. Wash thoroughly after handling. Wear rubber gloves when handling concentrate.

FIRST AID

If swallowed, call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. If in eyes, hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. If on skin or clothing, take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION

The treatment of systemic intoxication should be primarily symptomatic and supportive. In cases of ingestion carry out gastric lavage with care to prevent aspiration. This product contains petroleum distillates.

STORAGE

Protect from temperature under 0°C. Keep container closed when not in use. Do not store near food or feed. In case of spill or leak on floor or paved surfaces, soak up with sand, earth or synthetic absorbent.

DISPOSAL

1. Thoroughly empty the contents of the container into the application device.
2. Make the empty container unsuitable for further use.
3. Dispose of the container in accordance with provincial requirements.
4. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in the case of a spill, and for clean-up of spills.

ENVIRONMENTAL HAZARDS

Do not apply when weather conditions favour drift from target area. This product contains a petroleum distillate which is moderately to highly toxic to aquatic organisms. Avoid contamination of aquatic systems during application. Do not contaminate these systems through direct application, disposal of waste or cleaning of equipment. This product is very toxic to bees; avoid spraying when bees are foraging.

PHYSICAL OR CHEMICAL HAZARDS

Do not use or store near heat or open flames.

NOTICE TO USER

This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.
