FIRST AID:

If swallowed: Call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice. If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. If in eyes: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

In case of Medical emergencies or health and safety inquiries or in case of fire, leaking or damaged containers, information may be obtained in the by calling 1-800-334-7577.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

PRECAUTIONS:

KEEP OUT OF REACH OF CHILDREN

Flammable mixture. Product contains petroleum distillate. Do not store, pour or use near fire or flame. Wear mask or respirator when applying spray mist. Wear protective clothing.

Harmful if swallowed, inhaled, or absorbed through skin. Wash thoroughly with soap and water after handling. Do not contaminate feed, water or foodstuffs. In food processing plants and food service establishments, apply only when plant is not in operation.

Remove all food before treatment. Cover all food processing surfaces and thoroughly clean with potable water before resuming operations. Do not use in milk processing plants or milk parlors. Do not use near birds, fish or pets.

Do not spray on plastic, or varnished surfaces. Do not spray closer than 1 m to fabric.

ENVIRONMENTAL HAZARDS

Remove pets, birds and cover fish aquaria before spraying. This product is toxic to fish, shrimp, crab and other aquatic organisms. Keep out of lakes, streams and ponds. Do not apply where runoff is likely to occur. Do not contaminate water by cleaning of equipment or disposal of wastes.

DIRECTIONS FOR USE

SHAKE WELL BEFORE USING

Food should be removed or covered during treatment. All food processing surfaces should be covered during treatment and thoroughly cleaned with potable water before using. When using this product in these areas, apply only when the facility is not in operation.

FOR INDOOR APPLICATION TO SURFACES:

Mix at a rate of 10 to 20 liters of concentrate with 200 liters of odourless petroleum distillate. Apply to wet surface using a coarse droplet spray.

TO CONTROL COCKROACHES, ANTS, SPIDERS, SILVERFISH, CENTIPEDES, CRICKETS, BOXELDER BUGS AND CLOVER MITES: Direct spray into hiding places, cracks, crevices, behind baseboards and molding, behind and under stoves, sinks, refrigerators, shelving, and openings around electrical connections or plumbing. Spray ant trails, nests and points of entry. Spray insects directly whenever possible. Repeat application when reinfestation occurs.

TO CONTROL FLEAS INDOORS:

Spray infested areas thoroughly with particular attention to cracks, crevices, behind baseboards and molding and under edges of rugs. Pet bedding should be thoroughly cleaned and sprayed or destroyed and replaced. *Pets should be treated using an insecticide registered for use on pets to prevent reinfestation. Repeat treatment as needed.

* Do not treat pets with this formulation.

TO CONTROL BROWN DOG TICKS INDOORS:

Apply spray carefully to all observed crevices, behind baseboards, pictures, furniture and draperies and under furniture and edges of rugs. Dogs should be treated with an approved insecticide registered for use on pets to reduce infestation. Repeat treatment as needed.

TO CONTROL CARPET BEETLES:

Spray edges of carpeting and under carpet and rugs. Make localized application to floor and baseboards. Spray directly into cracks, crevices and infested areas of shelving. Repeat if reinfestation occurs.

TO CONTROL CLOTHES MOTHS:

Remove any infested articles from storage, brush thoroughly and air for several hours in sunlight, if possible. Apply spray liberally to empty chests, closets, bureaus and other storage areas, directing the spray into cracks, joints and crevices. After airing, infested articles may be treated lightly keeping nozzle at least one meter from fabric to avoid staining.

TO CONTROL BED BUGS:

Spray all surfaces of mattresses thoroughly with particular attention to tufts, seams and folds. Spray bedspread, springs and other bedroom furnishings, walls, floors, baseboards and mouldings with special attention to hiding places.

AS AN INDOOR SPACE SPRAY:

Mix at a rate of 5 to 10 liters of concentrate with 200 liters of odourless petroleum distillates. Apply using good conventional equipment adjusted to deliver a fine mist.

TO CONTROL FLIES, FRUIT FLIES, MOSQUITOES, GNATS, SMALL FLYING MOTHS, WASPS AND HORNETS: Close doors and windows and shut off ventilation systems. Direct spray towards upper portions of room and toward light sources filling the entire area with mist. Use 200 to 300 grams spray mixture per 100 cu. meters of space.

Keep area closed for 10 minutes. Vacate treated area. Ventilate and sweep up dead insects before re-occupying. Repeat when necessary.

OUTDOOR APPLICATION

TO CONTROL ADULT MOSQUITOES, mix 4 liters of concentrate with 16 liters of fuel oil and apply using conventional mechanical, thermal or compressed air misting equipment. For best results, treat in the evening or early morning when the wind velocity does not exceed 20 km per hour. Apply at the rate of 6.5 liters per hectare (0.5 liter per 100 cubic meters).

Treat shrubbery and vegetation where mosquitoes may rest. Shrubby and vegetation around stagnant pools, marshy areas, ponds and shorelines may be treated. Application of this product to marsh areas or any body of water is prohibited.

TO KILL WASPS AND HORNETS:

Mix at a rate of 10 to 20 liters of concentrate in 200 liters of petroleum distillate or fuel oil. Spray nests and surrounding surfaces using a jet stream pattern if possible. Treatment at dusk is recommended when the air is calm and insects have returned to the nests.

DISPOSAL:

Do not reuse empty container. Rinse the emptied container thoroughly and add the rinsings to the spray mixture in the tank. Follow provincial instructions for any required additional cleaning of the container prior to its disposal. Make the empty container unsuitable for further use. Dispose of the container in accordance with provincial requirements.

NOTICE TO USER:

This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.

This label transcript service is offered by the Pest Management Regulatory Agency to provide efficient searching for label information.
