Product of Canada

DIRECTIONS FOR USE:

Under normal conditions use an initial charge of 500mL of MICROCID L-640 per each cubic metre (1000 litres) in the system. As a sustaining dosage, use 30 mL of MICROCID L-640 for each cubic metre in the system three times per week (Monday, Wednesday, Friday). For more detailed information, contact your Pace Chemicals Ltd.

FIRST AID:

In case of contact with eyes, flush with plenty of water for at least 15 minutes. If eye irritation persists, get medical attention. If swallowed, induce vomiting with salt, soap or mustard in warm water. Call a physician or a poison control centre immediately. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

DISPOSAL:

1. Triple or pressure-rinse the empty container. Add the rinsing to the treatment site.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal.
3. Make the empty container unsuitable for further use.
4. Dispose of the container in accordance with provincial requirements.
5. For information on the disposal of unused, unwanted product, contact the manufacturer or the
