Raid Defence System

Helps you work smarter, not harder, to fight bugs.

Visit raid.ca to identify your bug and best treatment plan.

Tips:

Ants: Store ant-attractive foods in plastic containers with lids that snap tight. Empty kitchen garbage containers often. Repair and seal as many visible cracks in the foundation and exterior walls of your house as possible. Indoors, caulk along baseboards, cracks and crevices to keep the ants from passing through your house.

Spiders: Sweep behind washers and dryers often and rearrange furniture periodically to avoid spiders spinning webs in the same location. Keep clothing, shoes and blankets off the floor so that spiders do not hide in them during the day.

Wasps: Avoid leaving food or drink uncovered when eating outside. Keep all garbage covered in tightly closed containers until it can be thrown out. Spraying nests after nightfall is recommended because wasps are less active at night.

Use this product to: Kill (Bugs) on Contact:

Use (Raid® Home Insect Killer) (this product) (indoors) to kill listed insects on contact.

Use Other Raid® products to: Kill (Bugs) at the Source:

For Ant problems, use a Raid® Ant Bait product to kill ants where they breed. For Spider problems, use Raid Spider Blaster to kill spiders in the nest on contact. For Wasp problems, use Raid Wasp & Hornet Killer 7 (outdoors) to kill wasps and their entire nests on contact.

(Outdoor) (Mountain) (Country) (Spring) Fresh Scent

Clean, pleasant odour

Kills on contact

Kills (flies), (mosquitoes), (fleas), (flying moths), (gnats), (spiders), (bed bugs), (sowbugs), (carpet beetles), (centipedes), (ants), (silverfish) and (wasps)

Secondary panel

Non-staining, non-flammable. Kills on contact: Flies, mosquitoes, fleas, flying moths, gnats, spiders, bed bugs, sowbugs, carpet beetles, centipedes, ants, silverfish, wasps. Insects must be hit by spray to be killed.

DIRECTIONS: FOR INDOOR USE. FLYING INSECTS: Shake before using. Close all doors and windows. Spray RAID® Home Insect Killer up into the air with sweeping motion, keeping about 1 m from interior walls, fabric and furniture. Keep room closed for 15 minutes. About 12 seconds of spraying clears an average sized room (28 m³).

FLEAS: Spray infested areas such as pet's bed and resting quarters.

BED BUGS: Take beds apart. Spray frames, joints, mattresses (particularly tufts and seams), floorboards, mouldings and baseboards.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Cover fish bowls and remove pets for one hour when spraying rooms. Avoid inhalation. Cover food and food utensils. Do not spray directly on skin or pets. Ventilate all rooms after treatment. KEEP FROM FREEZING. CONTENTS UNDER PRESSURE. Do not puncture or incinerate container or store at temperatures over 50°C.

FIRST AID: If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. **If swallowed:** Call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give **any** liquid to the person. Do not give anything by mouth to an unconscious person. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

DISPOSAL: When empty, press button to release pressure and discard in household garbage.
