S.A.R.M Mouse & Rat Bait  
Warfarin with Rolled Oats  
COMMERCIAL PARTICULATE  
NET CONTENTS 24 - 454 g Bags (10.896 kgs)  
READ THE BAG LABEL BEFORE USING  
ACTIVE INGREDIENT: WARFARIN .....0.025%  
REGISTRATION No. 14640 PEST CONTROL PRODUCTS ACT

ECOPEST INC.  
8605 Cornet Road NW  
Edmonton, Alberta T6E 4P2

Only to be used by certified pest control operators, farmers and persons authorized in government-approved pest control programs. This rodenticide contains warfarin, an anticoagulant chemical that reduces the clotting ability of blood and, upon repeated feeding, causes fatal hemorrhage in rats and mice. Users should remove clothing immediately if pesticide gets inside. Then wash skin thoroughly and put on clean clothing. For use indoors and against the outside walls of buildings.

#### **PRECAUTIONS**

**KEEP OUT OF REACH OF CHILDREN, PETS AND LIVESTOCK.** Harmful if swallowed as it may reduce clotting of the blood and cause bleeding. May be harmful or fatal if swallowed or absorbed through the skin. Chemical-resistant gloves must be worn when handling product and when disposing of dead rodents, unconsumed bait and empty containers. Avoid contact with eyes, skin, or clothing. Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Wash skin thoroughly with soap and water after handling. Wash contaminated clothing, separately from other laundry, with soap and hot water before reuse. **KEEP AWAY FROM FEED AND FOODSTUFFS.** All handlers must wear long-sleeved shirt and long pants, shoes plus socks, and chemical-resistant gloves when handling this product. Keep out of lakes, streams, and ponds.

#### **FIRST AID**

If in eyes, hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. If on skin or clothing, take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice. If swallowed, call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person. If pet or livestock poisoning is suspected, immediately contact a veterinarian. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

#### **DISPOSAL**

Do not re-use empty container. Dispose of unused or spoiled bait in accordance with local requirements. Follow provincial instruction for any required additional cleaning prior to its disposal. Make the empty container unsuitable for further use. Dispose of the container in accordance with provincial requirements. For information on the disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

**RODENT DISPOSAL:** Dispose of dead rodents in garbage or by burying.

#### **NOTICE TO USER**

This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label.

#### **TOXICOLOGICAL INFORMATION**

**Vitamin K1 in the form of intramuscular or subcutaneous injections, or by oral ingestion are suggested remedial treatments for anticoagulant poisoning.** The severity of the case measured by establishing prolonged prothrombin times (P.T.) will determine appropriate therapy. Monitoring P.T. will indicate the necessity of repeated treatments.

REGISTRATION No. XXXXX PEST CONTROL PRODUCTS ACT

ECOPEST INC.  
8605 Cornet Road NW  
Edmonton, Alberta T6E 4P2

Only to be used by certified pest control operators, farmers and persons authorized in government approved pest control programs. This rodenticide contains warfarin, an anticoagulant chemical that reduces the clotting ability of blood and, upon repeated feeding, causes fatal hemorrhage in rats and mice. Users should remove clothing immediately if pesticide gets inside, and then wash skin thoroughly and put on clean clothing. For use indoors and against the outside walls of buildings.

#### **DIRECTIONS FOR USE**

Registered in Canada for use in DWELLINGS, FARM BUILDINGS, FOOD SERVICE ESTABLISHMENTS, GRANARY BINS (empty), PROCESSING PLANTS (feed, food, non-food), and STORAGE AREAS (feed, food, non-food). For areas not directly related to food processing: use only in non-food or non-feed area where feed, food, packaging, and handling equipment are never opened or exposed. For areas where feed or food is processed, served, or stored: in meat and food processing plants (processing areas), use only when plant is not in operation. Remove or cover all food, packaging material and utensils before placing bait in baiting stations. Remove all bait and dead rodents before reuse of the plant (processing areas include storage and service).

FOR NORWAY RAT, ROOF RAT AND HOUSE MOUSE, place the bait in locations frequented by the rodent, such as tunnels, feeding areas and runways. For rats, set out 24 to 454 grams (one full bag) of bait per station. For mice, set out piles of 15 to 50 grams of bait at intervals of 2 to 3 metres. Replace bait which becomes damp or moldy. Maintain an uninterrupted supply until feeding ceases.

#### **USE LIMITATIONS**

Bait may be placed indoors and outdoors within 15 metres of buildings. Rodenticide bait can be placed in tamper-resistant bait stations along the fence line of properties, outside of the 15 metre limit but within 100 metres of buildings, if the station is securely fastened (e.g., nailed down) to the fence or the ground. Bait **MUST** be placed either in tamper-resistant bait stations or in locations not accessible to children, pets, livestock or non-target wildlife. Bait applied outdoors and above-ground **MUST** be placed in bait stations. **DO NOT** place bait in areas where there is a possibility of contaminating food or surfaces that come in direct contact with food.

Bait stations (tier 3) used for the placement of rodenticide bait indoors, in locations not accessible to pets or livestock must have the following characteristics: (1) be constructed of high-strength

material (e.g., metal or injection moulded plastic) and resistant to destruction by children; (2) have an entrance designed so that children cannot reach the bait; (3) have an internal structure that prevents bait from being shaken loose; (4) have an access panel that fastens securely and locks (e.g., metal screw or padlock); and (5) bear the product name, active ingredient, guarantee, registration number, "WARNING POISON", and the skull and crossbones symbol.

Bait stations (tier 2) used for the placement of rodenticide bait indoors, in locations accessible to pets or livestock must have the following characteristics, in addition to those outlined above for tier 3 bait stations: (1) resistant to destruction by non-target animals; and (2) have an entrance designed so that non-target animals cannot reach the bait.

Bait stations (tier 1) used outdoors, above-ground, in locations accessible to children, pets and non-target wildlife must have the following characteristics, in addition to those outlined above for tier 2 and 3 bait stations: (1) be resistant to destruction or weakening by elements of typical non-catastrophic weather (such as snow, rain, extremes of temperature and humidity, direct sunshine, etc.).

### **PRECAUTIONS**

**KEEP OUT OF REACH OF CHILDREN, PETS AND LIVESTOCK.** Harmful if swallowed as it may reduce clotting of the blood and cause bleeding. May be harmful or fatal if swallowed or absorbed through the skin. Chemical resistant gloves must be worn when handling product and when disposing of dead rodents, unconsumed bait and empty containers. Avoid contact with eyes, skin, or clothing. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Wash skin thoroughly with soap and water after handling. Wash contaminated clothing separately from other laundry, with soap and hot water before reuse. **KEEP AWAY FROM FEED AND FOODSTUFFS.** All handlers must wear long-sleeved shirt and long pants, shoes plus socks, and chemical-resistant gloves when handling this product. Keep out of lakes, streams, and ponds.

### **FIRST AID**

If in eyes, hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. If on skin or clothing, take off contaminated clothing. Rinse skin immediately, with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice. If swallowed, call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person. If pet or livestock poisoning is suspected, immediately contact a veterinarian. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

### **TOXICOLOGICAL INFORMATION**

Vitamin K1 in the form of intramuscular or subcutaneous injections, or by oral ingestion are suggested remedial treatments for anticoagulant poisoning. The severity of the case measured by establishing prolonged prothrombin times (P.T.) will determine appropriate therapy. Monitoring P.T. will indicate the necessity of repeated treatments.

### **STORAGE**

Store in a cool, dry place away from other chemicals and food or feed. Store product not in use, in original container, in a secure location inaccessible to children and non-target animals.

### **DISPOSAL**

Do not re-use empty container. Dispose of unused or spoiled bait in accordance with local requirements. Follow provincial instruction for any required additional cleaning prior to its disposal. Make the empty container unsuitable for further use. Dispose of the container in accordance with provincial requirements. For information on the disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

RODENT DISPOSAL: Dispose of dead rodents in garbage or by burying.

### **NOTICE TO USER**

This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this control product in a way that is inconsistent with the directions on the label.
