PRECAUTIONS

KEEP OUT OF REACH OF CHILDREN

DO NOT APPLY BY AIR

Contact with eyes causes moderate to severe irritation and possible corneal damage.

Contact with skin causes slight to moderate irritation.

Inhalation of vapours may cause mild irritation and will be narcotic at high concentrations.

Do not get in eyes or on skin. Wear eye and skin protection when handling. Do not take internally.

Avoid breathing spray mist.

If the pest control product is to be used on a commodity that may be exported to the U.S. and you require information on acceptable residue levels in the U.S., visit CropLife Canada's web site at: www.croplife.ca.

FIRST AID

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice.

If swallowed: Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

TOXICOLOGICAL INFORMATION

No specific antidote. Employ supportive care. Treatment should be based on judgment of the physician in response to reactions of the patient.

AGRICULTURAL CHEMICAL

Do not ship or store with food, feeds, drugs or clothing.

ENVIRONMENTAL HAZARDS

Do not contaminate any body of water by direct application, cleaning of equipment or disposal of wastes.

STORAGE

Do not store near feed, seed, fertilizers or food products.

DISPOSAL

Do not reuse this container for any purpose. This is a recyclable container, and is to be disposed of at a container collection site. Contact your local distributor/dealer or municipality for the location of the nearest collection site. Before taking the container to the collection site:

1. Triple- or pressure-rinse the empty container. Add the rinsings to the spray mixture in the tank.
2. Make the empty, rinsed container unsuitable for further use.

If there is no container collection site in your area, dispose of the container in accordance with provincial requirements.

For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

DISPOSAL

Recyclable Containers:

Do not reuse this container for any purpose. This is a recyclable container, and is to be disposed of at a container collection site. Contact your local distributor/dealer or municipality for the location of the nearest collection site. Before taking the container to the collection site:

1. Triple- or pressure-rinse the empty container. Add the rinsings to the spray mixture in the tank.
2. Make the empty, rinsed container unsuitable for further use.

If there is no container collection site in your area, dispose of the container in accordance with provincial requirements.

Returnable Containers:

Do not reuse this container for any purpose. For disposal, this empty container may be returned to the point of purchase (distributor/dealer).

For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

GENERAL INFORMATION

Companion is a water soluble, non-ionic surface active agent which enhances the effectiveness of agricultural chemicals. Companion is recommended for use with Roundup, Telar, Ally, Refine Extra, Muster, Amber 75WG, Avenge 640 and Rovra.

GENERAL USE PRECAUTIONS

- **DO NOT APPLY BY AIR**
- If this pest control product is to be used on a commodity that may be exported to the U.S. and you require information on acceptable residue levels in the U.S., contact 1-866-375-4648 or www.cropro.org/

Tank Mixtures

In some cases, tank mixing a pest control product with another pest control product or a fertilizer can result in biological effects that could include, but are not limited to: reduced pest efficacy or increased host crop injury. The user should contact Corteva Agriscience Canada Company at 1-800-667-3852 or www.corteva.ca for information before mixing any pesticide or fertilizer that is not specifically recommended on this label.

DIRECTIONS FOR USE

READ ALL DIRECTIONS CAREFULLY BEFORE APPLYING.

IMPORTANT: When using Companion, carefully follow all label directions for Roundup, Telar, Ally, Refine Extra, Muster, Amber 75WG, Avenge 640 and Rovral.

USE WITH ROUNDUP HERBICIDE

Companion increases the herbicidal effectiveness of Roundup when used in postemergence weed control for minimum or zero-tillage cropping systems in wheat, barley, and oats. To control the annual grasses and broadleaf weeds listed on the Roundup label (Minimum Tillage section), apply 450 mL of Companion plus 1.1 litres of Roundup in 50-100 litres of clean water per hectare.

USE WITH TELAR HERBICIDE

To control the broad leaf weeds listed on the Telar label, use 1 litre of Companion for each 1,000 litres of spray mixture.

USE WITH ALLY HERBICIDE

To control broad leaf weeds listed on the Ally label, use 2.0 litres of Companion for each 1,000 litres of spray mixture.

USE WITH REFINE EXTRA HERBICIDE

To control broad leaf weeds listed on the Refine Extra label, use 2 litres of Companion for each 1,000 litres of spray mixture.

USE WITH MUSTER HERBICIDE

To control wild mustard in canola, use 2 litres of Companion for each 1,000 litres of spray mixture.

USE WITH AMBER 75WG HERBICIDE

To control broad leaf weeds listed on the Amber 75WG label, use 2 litres of Companion for each 1,000 litres of spray mixture.

USE WITH AVENGE 640 HERBICIDE

To control wild oats in barley and the varieties of wheat listed on the Avenge 640 label, use 500 mL of Companion for each 100 litres of spray mixture.

USE WITH ROVRAL ON WHITE BEANS

To control white mold in white beans, use 250 mL of Companion for each 100 litres of spray mixture.

Mixing Instructions

Fill the spray tank at least half full with water and add the appropriate amount of Roundup, Telar, Ally, Refine Extra, Muster, Amber 75WG, Avenge 640, or Rovral while the agitation system is running. Complete filling spray tank with water and add the appropriate amount of Companion under constant agitation.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label.
