Recochem Inc. 850 Montée de Liesse, Montréal, Québec H4T 1P4 Telephone : 514-341-3550

When exposed to air and used as directed Paradichlorobenzene evaporates, releasing a vapour that kills clothes moths, larvae and carpet beetles. Cedar Scented Moth Balls leave a pleasant, light cedar fragrance in the garments with which they are stored.

DIRECTIONS FOR USE:

Do not place in areas accessible to children.

Thoroughly brush articles to be stored. Place garments, woolens, furs, etc., in airtight trunk or chest. Use 170 g of Cedar Scented Moth Ball Packets to 0.85 cubic metre of space. Seal all joints and holes of the container with adhesive tape to prevent loss of vapour and entry of insects. Keep the box closed when not in use.

Do not use Cedar Scented Moth Balls in combination with naphthalene moth preventatives, as the two products may interact.

Avoid direct contact with plastic vinyl.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Eye and Skin Irritant. Harmful or fatal if swallowed. Do not get in eyes, on skin or on clothing.

FIRST AID:

IF SWALLOWED: Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically

DISPOSAL: Do not reuse container. Wrap and dispose of container in household garbage.

The volume of the storage container to be treated can be calculated by multiplying the height, width, and depth of the space.

[eg: *height* 10 cm x *width* 40 cm x *depth* 40 cm = 16 000 cm³ ÷ (1000 cm³/L) = 16 litres].

Apply product at the following rates:

Number of mothballs:	Enclosed space: (approximate volumes)
1 sachet (2 balls)	Small container (35 litres)
4 sachets (8 balls)	Medium container (140 litres)
10 sachets (20 balls)	Large container (350 litres)
