DOMESTIC

NET CONTENTS: 1 L
READY TO USE

Woodstream Canada Corporation, Unit 1, 25 Bramtree Court, Brampton ON L6S 6G2
Tel: (800) 800-1819

DIRECTIONS FOR USE: On roofs, walks, woodwork, stucco, fences and in greenhouses; spray overgrown surfaces, wetting thoroughly. For best results avoid applying during rain or snow. Repeat treatment annually, or at onset of recolonization. 500 mL of spray will cover 1 m². **NOTE:** Moss and algae sprayed during the growing season discolour within days. Growth sprayed in the dormant (cold) season may discolour over a longer period. DE-MOSS may cause a white residue when used on brick and some types of concrete. When applying to these types of surfaces, treat a small area first to observe if staining occurs. Residue will wear off after a few weeks.

PRECAUTIONS: KEEP OUT OF THE REACH OF CHILDREN. Causes eye irritation. Avoid eye contact. May cause skin irritation. Do not apply to foliage of plants, shrubs or trees. Also, treated surfaces may be temporarily slippery. Do not contaminate productive bodies of water.

DISPOSAL: Do not reuse empty container. Wrap and dispose of empty container in household garbage.

FIRST AID: In case of eye contact, hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.
