DIRECTIONS FOR USE

This product is to be used for the manufacture of industrial microbiocides which are registered under the Pest Control Products Act.

PRECAUTIONS

KEEP OUT OF REACH OF UNAUTHORIZED PERSONNEL.

Causes eye and skin irritation. Do not get in eyes, on skin or on clothing. Wear goggles or face shield, rubber gloves and protective clothing (hats, long sleeve shirt, long pants and boots) when handling. Harmful if swallowed. Avoid contamination of food and feedstuffs.

DISPOSAL

1. Triple or pressure-rinse the empty container. Add the rinsings to the treatment site.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal.
3. Make the empty container unsuitable for further use.
4. Dispose of the container in accordance with provincial requirements.
5. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

FIRST AID

In case of contact with eyes, hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice. Remove and wash contaminated clothing before reuse.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for treatment advice.

If swallowed, call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION

A. Symptoms of Nabam Poisoning:

May cause skin, eye, and respiratory tract irritations. May cause skin sensitization reaction.

B. Antidote:

Wash skin with soap and water. Flush eyes with copious amounts of water.

If Nabam was ingested within the last few hours and if copious vomiting has not occurred, the stomach should be emptied and steps taken to limit gastrointestinal absorption. If the patient is fully alert and not exhibiting signs of central nervous system depression, use physical means to induce vomiting. When vomiting stops, administer charcoal and cathartic orally. If the patient exhibits signs of central nervous system depression or fails to vomit within 30 minutes, the stomach should be emptied by gastric intubation, aspiration and lavage with slurry of activated charcoal. Instill activated charcoal following lavage. Include a cathartic to hasten elimination.

Caution: Monitor fluid balance and serum electrolytes.

NOTICE TO USER

This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.
