NET CONTENTS: 240 mL

## **NOTICE TO USER**

This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label.

### **FIRST AID:**

**HUMANS:** IF SWALLOWED, call a poison control centre or doctor immediately for treatment advice. **DO NOT** induce vomiting unless told to do so by a poison control centre or doctor. **DO NOT** give any liquid to the person. Do not give anything by mouth to an unconscious person. IF ON SKIN OR CLOTHING, take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice. IF IN EYES, hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

### **PETS:**

Sensitivities may occur after using ANY pesticide for pets. If signs of sensitivity occur bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

Take container, label or product name and PCP Registration Number with you when seeking medical or veterinary attention.

### **TOXICOLOGICAL INFORMATION:**

Treat symptomatically.

#### **PRECAUTIONS:**

**HUMANS:** KEEP OUT OF REACH OF CHILDREN. Harmful if swallowed. Avoid contact with mouth, eyes, skin and clothing. After handling or applying, wash hands (or any other skin that came into contact with the product) with soap and water. Avoid contact with pet until dry. Avoid product contact with food, food utensils or places where food is prepared or stored.

**PETS:** Harmful if swallowed. Avoid contact with pet's mouth, face, eyes, and genitals. **DO NOT** allow pet to lick the suds from the coat or to ingest any of the shampoo.

#### **Side Effects:**

Monitor your dog after application. Side effects may include: skin irritation such as redness or scratching; changes in behaviour such as agitation or lethargy; or gastrointestinal effects such as vomiting or loss of appetite. If these or other side effects occur consult your veterinarian or registrant at 1-800-688-7378.

Monitor your cat after application. Side effects may include: skin irritation such as scratching or hair loss at the application site, or changes in behaviour such as agitation or lethargy. Gastrointestinal effects such as drooling, vomiting, or loss of appetite may also occur. If these or other side effects occur consult your veterinarian or registrant at 1-800-688-7378.

## **DIRECTIONS FOR USE:**

Insecticidal shampoo for cats and dogs to kill cat and dog fleas, brown dog ticks and American dog ticks and to clean and condition the hair.

## **FOR USE ONLY ON DOGS AND CATS**

### **Use Limitations**

**DO NOT** use on puppies or kittens less than 12 weeks old.

**DO NOT USE ON ANY OTHER ANIMAL.**

Consult a veterinarian before using on sick, aged, pregnant or nursing animals or animals receiving drug or other pesticide treatment.

**DO NOT** allow dog or cat to lick the suds from the coat or to ingest any of the shampoo.

**DO NOT** use solely as a shampoo when there is no pest problem.

This product contains Pyrethrins and Piperonyl Butoxide. **DO NOT** apply another pest control product such as a shampoo, spot on, collar or powder which contains Pyrethrins and Piperonyl Butoxide to the treated animal when using Zodiac Flea & Tick Shampoo.

**DO NOT** use this shampoo more often than once every two weeks. Treatment must only be repeated if pest problem reoccurs. Repeat every 2 weeks for continual pest control in situations where there is an ongoing risk of pest infestation.

To kill dog fleas, cat fleas, brown dog ticks and American dog ticks:

**DO NOT** administer by mouth. Wet coat of the pet thoroughly with warm water. Apply shampoo, working lather down to the skin from head to tail until entire body is covered. Ticks are difficult to control, therefore take care to treat individual ticks. Pay special attention to neck, hindquarters, areas under legs, around the tail and between toes. **DO NOT** apply to pet's face, eyes, nose, mouth or genitals. Allow lather to remain on pet for 5-10 minutes. Rinse thoroughly with water to remove all traces of shampoo from the pet's coat. Dry the pet thoroughly with a dry towel and comb or brush.

For effective flea and tick control, treatment of the pet should be combined with sanitation of any area used by the pet. Vacuum floors, carpets and furniture (discard vacuum bag after use) and wash the pet's bedding, living quarters and surrounding areas. If pest problems persist, a premise treatment with an insecticide labelled for that use may be required (Zodiac Premise Plus, Zodiac Premise 1000/2000). A veterinarian should be consulted when pest infestation continues to be a problem on the pet. The use of an effective product for controlling adult and larva flea populations in the pet's environment will reduce the possibility of re-infestation of the animal.

**STORAGE:** Store this product away from food or feed.

**DISPOSAL:** Do not reuse the empty container. Dispose in household garbage. Unused or partially used products should be disposed at provincially or municipally designated hazardous waste disposal sites.

100% satisfaction guaranteed.
