Busan 93 is used in pulp and paper mills to control bacterial and fungal slime. It is also used to inhibit the growth of bacteria and fungi that cause the microbiological degradation of papermaking chemicals.

DIRECTIONS FOR USE

For slime control in pulp and paper mill systems, Busan 93 is used at concentrations of 0.5 - 8 ppm, based on the total weight of fiber and water at maximum dilution for treatment periods of 2 to 6 hr. When conditions favor unusually rapid slime growth, the Busan 93 addition can be made once each 8 hr. or once each 12 hr. Under average conditions of slime growth, addition is made once each 24 hr. The addition should be made at a location where good mixing and agitation will ensure uniform distribution of Busan 93 in the mass of fiber and water. Technical assistance on individual mill or plant problems is available upon request.

NOTE: This product is not to be used in the production of paper or paperboard that comes in contact with food.

PRECAUTIONS

DANGER KEEP OUT OF REACH OF CHILDREN

Potential skin sensitizer. Harmful if swallowed. If the product gets into the eyes, it causes eye damage. Workmen handling the product should avoid contact of the product with clothing or skin. Wear chemical resistant gloves, a full-face NIOSH/MSHA approved organic vapour removing cartridge respirator, long pants, a long-sleeved shirt and shoes during mixing/loading, cleanup, repair and other handling activities. When handlers use closed metering systems the handler requirements can be reduced to a long-sleeved shirt, long pants and shoes. Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Users should remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Users should remove personal protective equipment immediately after handling this product. Wash the outside of the gloves before removing. As soon as possible, wash thoroughly and change into clean clothing. Keep the drum closed when not in use. After any skin exposure, wash promptly and thoroughly with an abrasive soap and cool water and finally with glycerin. Apply this product only as specified on this label. Do not reuse empty drum.

FIRST AID

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

If in eyes : Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

If on skin or clothing : Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice.

If inhaled : Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

If ingested : Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

TOXICOLOGICAL INFORMATION: Note to physician: Probable mucosal damage following ingestion may contraindicate gastric lavage.

DISPOSAL

Do not reuse this container for any purpose. This is a recyclable container, and is to be disposed of at a container collection site. Contact your local distributor/dealer or municipality for the location of the nearest collection site. Before taking the container to the collection site:

1. Triple- or pressure-rinse the empty container. Add the rinsings to the treatment site.
2. Make the empty, rinsed container unsuitable for further use.

If there is no container collection site in your area, dispose of the container in accordance with provincial requirements.

For information on disposal of unused, unwanted product, contact the manufacturer or the Provincial Regulatory Agency. Contact the manufacturer and the Provincial Regulatory Agency in case of a spill, and for clean-up of spills.
