READ ENTIRE LABEL BEFORE EACH USE. USE ONLY ON DOGS OR CATS.

An insecticidal shampoo rich in coconut conditioners that aid in building body, luster and groomability to the coat of your pet. The insecticidal ingredients are highly and rapidly effective against fleas and ticks when used as directed.

DIRECTIONS FOR USE: Do NOT get in pet's eyes or mouth. CAUTION. Do not use on animals under 12 weeks. Consult a veterinarian before using on sick, aged, pregnant or nursing animals or animals receiving drug or other pesticide treatment. It is a violation of the Pest Control Product Act to use this product in a manner inconsistent with its label. Wet the pet and apply a generous amount of shampoo working it well into the coat. For best results, the pet should be left in a lathered state for four or five minutes before rinsing with warm water. Do not reapply product for 2 weeks. Do NOT use solely as a shampoo when there is no pest problem. For effective flea and tick control, treatment of the pet should be combined with sanitation of any area used by the pet. Vacuum floors, carpets and furniture (discard vacuum bag after use) and wash the pet's bedding, living quarters and surrounding areas. If pest problems persist, an insecticidal premise treatment may be required. A veterinarian should be consulted when pest infestation continues to be a problem on the pet.

PRECAUTIONS:

HUMANS: KEEP OUT OF REACH OF CHILDREN. Harmful if swallowed. Causes eye irritation. Avoid contact with eyes or clothing. Wash thoroughly any skin that came into contact with the product with soap and water after handling. Avoid contact with pets until dry.

PETS: Do NOT get in pet's eyes or mouth. Do NOT use solely as a shampoo when there is no pest problem. In case of infection or skin irritation, discontinue use and consult a veterinarian.

FIRST AID:

PETS: Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur, bathe the pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

HUMANS: IF IN EYES. Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

STORAGE AND DISPOSAL: Avoid contamination of food or foodstuffs. Do not reuse empty container. Wrap container in several layers of newspaper and put in trash collection.

TOXICOLOGICAL INFORMATION:

Treat symptomatically.
