**WILSON® ROSE DOCTOR®** controls the following insects and diseases on roses and other flowers and ornamentals.

**DIRECTIONS FOR USE:** For outdoor use only.

**INSECTS:** Aphids, Flea Beetles, Young Grasshoppers, Leafhoppers, Leafminer, Mites, Rose Chafer, Tarnished Plant Bug, Thrips, Caterpillars, Leafroller, Loopers, Scale Insects (crawler stage only).

**DISEASES:** Black Spot of Roses, Powdery Mildew, Anthracnose.

Apply a thin, uniform coating on both sides of the foliage when the insects or diseases appear. Hold container in an upright or slightly tipped position when applying. Dust when air is calm. Apply more lightly on young or tender foliage. Proper applications to protect plants from disease should be made throughout the growing season at 7 – 10 day intervals.

**TREATMENT OF OUTDOOR STRUCTURAL FOUNDATIONS ONLY** and 1 m wide path surrounding the foundation.

Avoid application of this product when winds are gusty. **DO NOT** apply to any body of water. **DO NOT** contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.

**PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN.** Avoid breathing dust. Harmful if swallowed. Avoid application in bright sunlight or when temperature is higher than 30° C. Wear rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash before use. Do not apply on Roses under glass. Malathion may be harmful to Petunias, Crassula, African Violet, Ilex, Juniper and some Ferns. Do not apply to Boston Ivy and Virginia Creeper. Carbaryl is toxic to bees. Do not use where bees are foraging.

**ENVIRONMENTAL HAZARDS: TOXIC** to birds and aquatic organisms.

**FIRST AID: If swallowed,** call a poison control center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. **If on skin or clothing,** take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice. **If in eyes,** hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. **If inhaled,** move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor immediately for treatment advice. Take container, label or product name and P.C.P. Registration Number with you when seeking medical attention.

**TOXICOLOGICAL INFORMATION:** This product contains a pesticide that is a cholinesterase inhibitor (anti-cholinesterase compound). Symptoms of human poisoning may

2014-2388

2014-07-24

include headache, weakness, sweating, blurred vision, nausea and diarrhea. Obtain medical attention or call a poison centre at once. Atropine is antidotal.

**STORAGE:** Do not contaminate water, food, or feed by storage or disposal. Keep in original container during storage. Isomalathion, a toxic metabolite of malathion forms when malathion product is stored at elevated temperatures or for extended periods of time. Malathion product must be stored in a cool ( $< 20 - 23^{\circ}\text{C}$ ), dry, well ventilated place away from seed, fertilizer or other pesticides and for no longer than one year.

**DISPOSAL:** Do not reuse container. Wrap and dispose of empty container with household garbage.

**For additional product information or in case of emergency, spills or fire, call toll-free 1-800-268-2806. [www.pthomeandgarden.com](http://www.pthomeandgarden.com)**
