PRECAUTIONS: PREVENT ACCESS BY UNAUTHORIZED PERSONNEL.

Very toxic by inhalation, in contact with the skin and if swallowed. Exposure to warfarin during pregnancy should be avoided. Warfarin may cause harm to the fetus including possible birth defects. **KEEP OUT OF REACH OF CHILDREN** in tightly closed container.

Keep away from food, drink, and animal feeding stalls. In case of insufficient ventilation, wear suitable respiratory equipment. Wear suitable protective clothing, gloves and protective glasses. Avoid contact with the skin or eyes.

FIRST AID: If on the skin or clothing, take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice. If in eyes, hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. If swallowed, call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Vitamin K1 in the form of intramuscle or subcutaneous injections, or by oral ingestion are suggested remedial treatments for anticoagulant poisoning. The severity of the case measured by establishing prolonged prothrombin times (P.T.) will determine appropriate therapy. Monitoring P.T. will indicate the necessity of repeated treatments.

DIRECTIONS FOR USE: To be used only in the manufacture of a rodenticide which is registered under the Pest Control Products Act.
