KILLS INSECTS WITH ONLY INGREDIENTS. Chemfree Insectigone

Insect Control Powder for Food Processing Plant is made from a unique patented formula containing amorphous diatomaceous earth, known as silicon dioxide, and an attractant. This odourless and non staining powder can be used without fear of damage to food, fish, birds or wildlife. Remains effective in the control of insects for as long as Chemfree Insectigone Insect Control Powder for Food Processing Plant is present.

DIRECTIONS FOR USE: Lightly coat the areas where insects are found and may hide such as cracks and crevices around pipes and drainage systems, window frames, floorboards and entrance ways. Apply Chemfree Insectigone Insect Control Powder for Food Processing Plant at a rate of 500 g/100 m² with a manual dust applicator. Hit insects directly where possible. Repeat treatment if pests reappear or after cleaning.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. In food processing plants, apply only when plant is not in operation. Cover or remove all food processing equipment, packaging material and utensils before application. Wash all surfaces that may contact food and rinse with potable water before re-use. Avoid breathing dust. Do not use as a general space spray. Avoid contact with eyes. Wear a suitable dusk mask approved by NIOSH/MSHA when handling. When using a dust blower, wear a NIOSH- approved supplied-air respirator (SAR) operated in a pressure-demand or other positive- pressure mode during mixing, loading and application.

Unprotected personnel should not enter the area during application or subsequent clean up. If this pest control product is to be used on a commodity that may be exported to the U.S. and you require information on acceptable residue levels in the U.S., visit CropLife Canada's web site at : www.croplife.ca

FIRST AID: If in eyes, hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing

eye. Call a poison control centre or doctor for treatment advice. If inhaled, move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. If swallowed, call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

DISPOSAL: 1. Thoroughly empty the contents of the container into the dust applicator. Make the empty container unsuitable for further use. 2. Dispose of container in accordance with provincial requirements. 3. For information on the disposal of unused, unwanted product contact the manufacturer or the provincial regulatory agency. 4. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.
