LIQUID MICROBICIDE

Aquarian C434 is used to control algae, bacteria and fungi in recirculating commercial and industrial water cooling towers. Aquarian C434 is a broad spectrum liquid microbicide that **WILL NOT CAUSE FOAM**.

DIRECTIONS FOR USE

Prior to the use of Aquarian C434 in water cooling towers, systems should be cleaned to remove algal growth, microbiological slime, and other deposits. Then make an initial slug addition of 250-490 ML of Aquarian C434 per 10,000 litres of water in the system. Repeat initial dosage until control is evident. Make subsequent slug additions of 80-490 mL of Aquarian C434 per 10,000 litres of water every 1 to 5 days or as needed. The frequency of addition depends upon the relative amount of bleed off and the severity of the microbiological problem. Slug additions should be made in the sump of water cooling towers.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Avoid breathing vapours. Avoid contact with skin, eyes or clothing. Wear a long-sleeved shirt, long pants, shoes and socks, chemical-resistant gloves and a NIOSH approved full face respirator during mixing, loading, clean up and repair activities. After any exposure wash promptly and thoroughly with an abrasive soap and cool water and finally with glycerin. The use of this product may cause the release of hydrogen cyanide and/or other cyanide compounds.

DISPOSAL:

1. Triple or pressure-rinse the empty container. Add the rinsings to the treatment site.
2. Follow provincial instruction for any required additional cleaning of the container prior to its disposal.
3. Make the empty container unsuitable for further use.
4. Dispose of the container in accordance with provincial requirements.
5. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

FIRST AID:

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

IF SWALLOWED: Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and other aquatic organisms. It is not to be used in circumstances that would cause or allow it to enter lakes, streams, ponds, estuaries, oceans or other waters in contravention of federal or provincial regulatory requirements. The requirements of applicable laws should be determined before using the product. Do not contaminate water or food by storage or disposal. Do not reuse empty containers.
