DELLA-MIST II\*® is engineered for highly effective use in the DELLA-MIST II\*® Automatic Aerosol Dispenser or other similar type dispensers. The DELLA-MIST II\*® dispenser automatically releases a metered dose of 50-55 mg of insecticide every 15 minutes, killing flies, mosquitoes, gnats and certain other flying insects. DELLA-MIST II\*® is designed for use in hospitals, restaurants, food processing plants, food service establishments, stables, barns and poultry houses while they are in operation. Also, for use in meat processing and meat packaging plants, when not in operation. Each can contains enough product to protect an area of at least 170 m<sup>3</sup> of free flow air space for up to 30 days.

**DIRECTIONS:** Remove protective cap from top of can and insert can into DELLA-MIST II\*® dispenser. Place dispenser 2-3 metres above floor at a point where air flow will carry insecticide throughout the area. Do not install directly over food or feed packaging surfaces.

**Stables, Barns, Poultry Houses** – hang in any area where flying insects present a problem. Helps eliminate the need for washing down animals with insecticides. Keeps livestock and other farm animals protected.

**PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN.** IN HOSPITALS, do not use in nurseries or rooms where infants, ill or aged persons are confined. IN MEAT PACKING PLANTS, spray only when plant is not in operation. No exposed meat products, ingredients or packaging materials may be left in the room. Cover food handling equipment. Any treated surface that may contact meat products should be washed and rinsed thoroughly with potable water after spraying and before reuse of meat processing. Contents under pressure. Container may explode if heated. Do not expose to temperatures above 50° C. Do not puncture or incinerate. Do not use in the presence of open flame or spark. Avoid contact with skin and inhalation of spray mist. Wash after using. Contents toxic to fish and birds. Do not contaminate food, feed or water. Do not install directly over polished plastic or varnished surfaces.

**DISPOSAL:** When container is empty, press valve to release all pressure. Dispose of empty container in accordance with provincial requirements. For information on the disposal of unused, unwanted product and the cleanup of spills, contact the provincial regulatory agency or the manufacturer.

**FIRST AID:** If in eyes, hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. If on skin or clothing, take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice. If swallowed, call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

**TOXICOLOGICAL INFORMATION:** Treat symptomatically

**NOTICE TO USER:** This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.
