DIRECTIONS FOR USE:

To be used only in manufacture of a product which is registered under the Pest Control Products Act. Read Technical Bulletin for formulation details.

CAUTIONS: Harmful if inhaled. Chronic toxicity is confined to persons suffering from Wilson's Disease.

PRECAUTIONS: KEEP OUT OF REACH OF UNAUTHORIZED PERSONNEL Avoid dust cloud formation. Keep away from ignition sources and acids. Avoid breathing dust. Use in well ventilated areas. Wear protective equipment to protect eyes and exposed skin during handling. Avoid prolonged and repeated skin contact. Wash hands thoroughly after use.

FIRST AID: If inhaled, move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. For skin or clothing take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice. For eye contact, hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. If ingested, call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: This product is not considered a carcinogen.

TARGET ORGANS: Respiratory system, nasal septum, skin, eyes, gastrointestinal, kidneys, liver, cardiovascular system.

PRIMARY ENTRY ROUTE(S): Inhalation, ingestion, skin or eye contact.

ACUTE EFFECTS: Copper dusts and mists are eye and mucous membrane irritants and skin sensitizers. Acute exposure may cause metallic taste and nasal ulceration and perforation. Prolonged skin contact produces sensitization dermatitis. Exposure results in irritation and metal-fume fever, metallic taste, and discoloration of the skin and hair. Ingestion of copper compounds causes vomiting and collapse. Acute poisoning is characterized by hemolysis, jaundice, anuria, hypotension and convulsions.

DISPOSAL: Canadian formulators using this product should dispose of unwanted active ingredient and containers in accordance with municipal or provincial regulations. For information on the disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill and for clean-up of spills.

STORAGE: Store at room temperature in dry area.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.

ATTENTION: THIS CONTAINER IS HAZARDOUS WHEN EMPTIED. ALL LABELLED HAZARD PRECAUTIONS MUST BE OBSERVED.
