DIRECTIONS FOR USE

Della Dairy Spray II FOGGING SOLUTION kills on contact: face flies, horse flies, stable flies, horn flies, house flies, mosquitoes, gnats, flies, crickets, ants, wasps, hornets and spiders.

This solution is a dual purpose formulation. It is designed for use as a spray to protect dairy and beef cattle, hogs and horses from the attack of biting flies.

Della Dairy Spray II FOGGING SOLUTION is also a very effective space spray and will provide fast knockdown and kill of house and other flies in barns, poultry buildings, milk rooms, dairies, feed lots, and piggeries.

FOR USE AS AN ANIMAL SPRAY – TO TREAT BEEF, DAIRY CATTLE AND SWINE: For mosquitoes, horn flies, horse flies, and stable flies – apply up to 30 mL per animal using a fine mist sprayer. Spray from a distance of at least 1 m. Cover the entire animal without making the hair wet. DO NOT SPRAY IN EYES. Repeat daily or as necessary. When treating dairy cattle, treat at least 20 minutes before milking and do not spray directly on udder. Wash udder before milking. Do not use more often than once per day.

TO TREAT HORSES: For horn flies, house flies, horse flies, mosquitoes, and stable flies – apply 15 mL per animal using a fine mist sprayer. Cover the entire animal without making the hair wet.

TO CONTROL BLOOD SUCKING LICE ON CATTLE: Apply to the infested areas of the animal, using a stiff brush to get the spray to the base of the hair. Repeat as necessary.

FOR USE AS A SPACE SPRAY IN FARM BUILDINGS (Dairy barns, milk rooms, beef barns, horse stables and swine housings): To clear areas of flies, gnats, mosquitoes, spiders, ants and cockroaches, apply using a space sprayer (fogger) adjusted to deliver a fine mist. Remove all animals at the time of spraying. Eliminate all sources of ignition. Close all windows and doors and shut off ventilating systems. Direct spray upwards to fill the room with a fine mist. Use at a rate of 200-300 mL per 100 cubic metres. Leave the room closed for 10-15 minutes before ventilating. Ventilate the sprayed area for 1 hour before re-entry. Sweep up dead insects. Repeat as necessary with additional spraying of breeding areas. Spray only when temperature is under 32° C.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Product contains petroleum distillate. Wear mask or respirator when applying spray mist. Wear protective clothing. Harmful if swallowed, inhaled, or absorbed through the skin. Wash thoroughly with soap and water after handling and before eating and smoking. Do not breathe spray mist. Wash contaminated clothing before reuse. Do not contaminate feed, food or water. Contents toxic to fish and birds. This product contains a petroleum distillate which is moderately to highly toxic to aquatic organisms. Avoid contamination of aquatic systems during application. Do not contaminate these systems through direct application, disposal of waste or cleaning equipment. Store in original container away from feed and food. Protect milk and milking utensils from the spray. Any treated surface that may contact food or feed products should be washed thoroughly with potable water after spraying or before reuse. Do not store or spray near an open flame.

DISPOSAL : Triple-or pressure-rinse the empty container. Add the rinsings to the spray mixture in the tank. Follow provincial instructions for any required cleaning of the container prior to its disposal. Make the empty container unsuitable for further use. Dispose of the container in accordance with provincial requirements. For information on the disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill and for clean-up of spills.

FIRST AID: If on skin or clothing, take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice. **If in eyes,** hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. **If swallowed,** call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. **If inhaled,** move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically. PRODUCT CONTAINS PETROLEUM DISTILLATE.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.

*Registered trademark/authorized user.
