DIRECTIONS FOR USE:

Acti-Brom 7342 is a solution of an inorganic bromine salt and biodispersant. Product as drummed is not a microbiocide. Acti-Brom 7342 is formulated to react with the hypochlorous acid (HOCl) from the addition of chlorine to form the biocidal active hypobromous acid. The reaction product has greater biocidal activity at significantly lower dosages than chlorine alone.

For zebra mussel control feed continuously during critical spawning periods, for a period of 2-3 weeks (or until larvae are no longer detectable in system). Application periods at any industrial, utility or municipal plant intake stream(s) will typically be necessary in the spring, mid-summer and fall.

DOSAGE: The dosage rate is proportional to the feed rate of the chlorine source. For best results feed:

0.85 kg Acti-Brom 7342/1 kg chlorine gas
or 0.82 kg Acti-Brom 7342/10 kg 12% sodium hypochlorite

The maximum feed rate of Acti-Brom 7342 would range between 10 to 15 mg/L, as product.

PRECAUTIONS:

This product is a mildly alkaline solution and should be handled with caution. In keeping with good hygiene practices, avoid eye and prolonged skin contact. Do not get in eyes, on skin or on clothing. Wash thoroughly after handling. Wear suitable protective equipment. If in contact with skin or eyes, flush affected area with running water. If irritation persists, obtain medical attention.

FIRST AID:

IF IN EYES, hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. IF ON SKIN OR CLOTHING, take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice. IF SWALLOWED, call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION:

Treat Symptomatically.

DISPOSAL:

For Porta-Feed System: 1. Close valve. 2. Arrange for return of Porta-Feed. For Other Containers: 1. Triple- or pressure- rinse the empty container. Add the rinsings to the treatment site. 2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal. 3. Make the empty container unsuitable for further use. 4. Dispose of the container in accordance with provincial requirements. 5. For information on disposal of unused, unwanted product, contact the Provincial Regulatory Agency or the manufacturer. Contact the Manufacturer and the Provincial Regulatory Agency in case of spill and for cleanup of spills.

ENVIRONMENTAL HAZARDS:

This product is toxic to fish and other aquatic organisms. It is not to be used in circumstances that would cause or allow it to enter lakes, streams, ponds, estuaries, oceans or other waters in contravention of federal or provincial regulatory requirements. The requirements of applicable laws should be determined before using the product.

NOTICE TO USER:

This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.
