READ THE LABEL BEFORE USING
NET CONTENTS: 3.78 LITRES

DIRECTIONS FOR USE

For use on boats or ships only. For prevention of marine fouling. Application rate is 9.84 square metres per litre (400 square feet per gallon). Large vessels (>25m) must be treated by trained applicators.

Previously Painted Bottom:

Tarr & Wonson 503-C Red may be applied over itself or most other soft coatings as long as they are clean, in good condition and firmly attached. Coatings that are cracked, damaged or peeling should be completely removed before painting.

New Wood:

No primer is necessary for unpainted wood. Sand clean with 80 grit sandpaper, then apply two coats of Tarr & Wonson 503-C Red. Thin first coat 10% with Thinner.

Steel:

Abrade to bright metal. As soon as possible, to avoid rusting, apply two to four coats of Gloucester #B374 Red Lead Epoxy. Then apply two coats of Tarr & Wonson 503-C Red.

DO NOT USE ON ALUMINUM

Fiberglass:

Clean thoroughly with Dewaxer lifting the dewaxer and contaminants off with clean rags. Abrade lightly with 80 grit paper, then seal with two coats of #B370 Epoxy Primer. To protect against gel coat blistering, apply four to five coats.

APPLICATION INFORMATION

Mix well before using and apply two coats at a rate of 9.84 square metres per litre to clean dry surfaces in good condition. Allow at least four hours between coats and before launching. Thin only if necessary, using Brushing Thinner.

Paint only at temperatures of 10°C (50°F) or above. Large vessels (>25m) must be treated by trained applicators.

DO NOT place the painted parts in water after painting until the paint is fully cured (see recommended times on the label). It is recommended that you prevent paint chips or dust caused by removing paint from entering water.

DO NOT apply this product in a way that will contact workers or bystanders, either directly or through drift. Only protected handlers may be in the area during application.

DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.

DO NOT apply this product directly to freshwater habitats (such as lakes, rivers, sloughs, ponds, prairie potholes, creeks, marshes, streams, reservoirs and wetlands), or estuarine/marine habitats.

DO NOT discharge effluent containing this product or the biocide produced into sewer systems, lakes, streams, ponds, estuaries, oceans or other waters unless the effluent has been detoxified by suitable means.

PRECAUTIONS

KEEP OUT OF REACH OF CHILDREN

Hazardous to Humans and Domestic Animals

WARNING

USE AN AIR-FED RESPIRATOR WITH A FULL FACE MASK DURING HANDLING AND APPLICATION. WEAR LONG PANTS, A LONG-SLEEVED SHIRT AND SHOES PLUS SOCKS, CHEMICAL RESISTANT GLOVES, GOGGLES AND FOOTWEAR, AND CHEMICAL RESISTANT CLOTHING INCLUDING HOOD OR HAT AT ALL TIMES DURING HANDLING, APPLYING AND MIXING/LOADING.

Handle with care and mix only in a closed container.

Use only in well ventilated areas.

When using, do not eat, drink or smoke.

Take a shower immediately after work.

Wear freshly laundered clothes daily.

Wash hands and face before eating, drinking, chewing gum, using tobacco or using the toilet.

Store and wash all protective clothing separately from household laundry.

Wash protective clothing in detergent and hot water before reuse.

Remove personal protective equipment immediately after handling this product.

As soon as possible, wash thoroughly and change into clean clothing.

Remove clothing/personal protective equipment immediately if pesticide gets inside.

Then wash thoroughly and put on clean clothing.

Discard clothing and other absorbent material that have been drenched or heavily contaminated with the product's concentrate. Do not reuse them.

Wash the outside of gloves before removing.

Wear long pants, a long-sleeved shirt and shoes plus socks during clean-up and repair.

ENVIRONMENTAL HAZARDS:

Toxic to aquatic organisms. Do not contaminate water. Do not apply directly to water by cleaning of equipment or disposal of wastes. Do not allow chips or dust generated during paint removal to enter water.

DISPOSAL:

Do not reuse empty containers for any purpose. Dispose of empty containers and paint debris in accordance with provincial requirements. For information on the disposal of

unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

PHYSICAL OR CHEMICAL HAZARD

COMBUSTIBLE. Do not use or store near heat or open flame.

FIRST AID:

If swallowed: Call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes.

Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

Call a poison control centre or doctor for treatment advice.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

Call a poison control centre or doctor for further treatment advice.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION:

Contains petroleum distillates and copper compounds. Do not induce vomiting due to danger of aspiration into lungs. Exposure to vapours, mist or dust can cause irritation of respiratory tract, dizziness, fatigue, copper fume fever, liver and kidney disease and blood disorders. Lung disorders (asthma-like conditions) may be aggravated by breathing vapours, mists or dusts. Avoid alcohol. Treat symptomatically.

NOTICE TO USER

This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.
