DIRECTIONS FOR USE: To be used only in the manufacture of a herbicide which is registered under the *Pest Control Products Act*.

PRECAUTIONS: PREVENT ACCESS BY UNAUTHORIZED PERSONNEL. Wear protective gloves and face shield when handling. Remove any contaminated clothing immediately. Wash hands and exposed skin thoroughly after handling.

This product contains petroleum distillate which is moderately to highly toxic to aquatic organisms. Avoid contamination of aquatic systems during application. Do not contaminate these systems through direct application, disposal of waste or cleaning equipment.

FIRST AID:

IF SWALLOWED: Call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give **any** liquid to the person. Do not give anything by mouth to an unconscious person.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

Take the container label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat the patient symptomatically. This product contains petroleum distillates. Vomiting may cause aspiration pneumonia.

STORAGE: Do not store at temperatures below 0°C.

SPILLAGE CLEAN-UP: Liquid evaporates and forms (fumes) which can catch fire and burn with explosive violence. Invisible vapour spreads easily and can be set on fire by many sources such as pilot lights, welding equipment, and electrical motors and switches. Fire hazard is greater as liquid temperatures rises above 29°C. Products of combustion from fires involving this material may be toxic. If fire is present, avoid breathing smoke and mists. Avoid personnel and equipment contact with fallout and runoff. Minimize the amount of water used for fire fighting. Normal combustion forms carbon dioxide, water vapour and may produce oxides of sulphur, nitrogen and toxic chlorine compounds. Incomplete combustion can produce carbon monoxide.

Do not enter any spill area without full protective equipment, including self-contained breathing equipment. Avoid runoff into storm sewers and ditches that lead to waterways. Contain spilled liquids and dry sorbents. After achieving containment, absorb spill (plus any firefighting runoff and debris if present) with inert materials (such as dry sand or earth) then place in a chemical waste container. Wash area with soap and water.

Pick up wash liquid with additional absorbent and place in a disposable container. If spilled into any body of water, isolate contaminated water. Remove contaminated water for treatment and/or disposal.

Wash thoroughly after tasks are completed. Discard non-reusable protective equipment. Decontaminate personal protective equipment and fire fighting equipment that will be reused.

DISPOSAL: Canadian formulators using this product should dispose of unwanted active and containers in accordance with municipal or provincial regulations. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.
