PRECAUTIONS

KEEP OUT OF REACH OF CHILDREN. MAY BE HARMFUL IF SWALLOWED. Crystallises at 16°C. Store in a warm place. **Ultra-Fresh LP-50** decomposes in the presence of alkaline materials. Protect from vapours of ammonia and amines during handling and storage to prevent deterioration and release of formaldehyde. Wear chemical-resistant gloves, long pants, a long-sleeved shirt and shoes plus socks during mixing, loading and other handling activities. Formaldehyde can be released during use of this product. It is recommended that this product not be used in circumstances which would result in formaldehyde air concentrations in the workplace exceeding the exposure levels established by occupational health and safety authorities in your jurisdiction. If values exceed this level, it is recommended that NIOSH approved respiratory protection be worn.

ENVIRONMENTAL HAZARDS

This product is not to be used in circumstances that would cause or allow it to enter lakes, streams, ponds, estuaries, oceans or other waters in contravention of federal or provincial regulatory requirements. The requirements of applicable laws should be determined before using the product.

FIRST AID

If swallowed, call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

Take container, label, or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION

Treat symptomatically.

DIRECTIONS FOR USE

For use in the control of microorganisms in industrial metalworking fluids, cooling towers and water for oilfield flooding. **Ultra-Fresh LP-50** will provide protection at a concentration of 1000 to 2000 ppm active ingredient. To obtain 1000 ppm add 168 ml **Ultra-Fresh LP-50** per 100 litres of fluid.
