**DIRECTIONS FOR USE:**

- Maintain proper daily levels as determined by testing kit.
  - Free available chlorine: 1.0 – 3.0 ppm
  - pH: 7.2 – 7.8
  - Total alkalinity: 80 – 120 ppm
  - Calcium hardness: 200 – 300 ppm
- For outdoor pools, chlorine residuals can be protected from destruction by the sun's rays by adding 300 g of stabilizer and conditioner per 10,000 L of pool water to yield the required initial concentration of 30 ppm.
- Maintain proper chlorine residual by broadcasting daily over the pool's surface, 91 g of PACE START UP SHOCK per 10,000 L of pool water, or as needed.  
NOTE: Hot weather, heavy pool usage and rain may require higher usage rates to maintain proper chlorine residuals.
- Periodic superchlorination of pool water is recommended. Follow label instructions of superchlorination product employed.
- PACE START UP SHOCK contains stabilizer which can accumulate in pool water. Keep stabilizer within the range of 30-100 ppm by dilution with fresh water.
- While PACE START UP SHOCK can be used for superchlorination, by using 410 g of PACE START UP SHOCK per 10,000 L of pool water, care must be taken to avoid excessive accumulation of stabilizer.

**PRECAUTIONS:**

KEEP OUT OF REACH OF CHILDREN. Strong oxidizing agent. May cause fire or explosion if contaminated. Dangerous gas formed when mixed with acid. Do not mix with any other chemical. It is recommended to wear rubber gloves when handling this product. Avoid contact with skin and eyes. Harmful if swallowed. Keep container closed and store in a cool, dry location.

**DISPOSAL:**

Rinse the container thoroughly before discarding. Do not reuse empty container. Wrap and dispose of empty container with household garbage. For information on disposal of unused, unwanted product, contact the manufacturer or the Provincial Regulatory Agency. Contact the manufacturer and the Provincial Regulatory Agency in case of a spill and for clean-up of spills.

**FIRST AID:** If swallowed: Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person. If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice. If in eyes: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.  
Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

**TOXICOLOGICAL INFORMATION:**

Treat symptomatically.
