## DIRECTIONS FOR USE

Cunapsol-5 is a concentrate and requires dilution with water before use. To treat wood, dilute one volume of Cunapsol-5 with 4 volumes of water.

For the preservation of exterior wood products. For exterior use only. Not for use in dwellings.

DO NOT apply using an airless sprayer.

DO NOT apply this product to wood that will be used in water.

For above ground use only. Apply to the wood surface only by brush for on site field applications.

For industrial use only in commercial spraybox, flow coating or dip tank. Equipment must be free of leaks. Equipment must have provision to eliminate or contain mist, overspray, drips and spillage into the surrounding environment.

Use of this product in industrial settings requires adequate engineered ventilation and containment in the treating areas and in the area where wood is dried.

Do not use the preservative or treated wood where Copper Napthenate may contaminate food, feed or drinking water. May be used on greenhouse and garden timbers in contact with non-food producing plants only. Carrier solvent must be allowed to dry thoroughly before introducing plants to prevent phytotoxicity.

DO NOT discharge effluent containing this product into sewer systems, lakes, streams, ponds, estuaries, oceans and other waters.

DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.

## PRECAUTIONS

Causes skin and eye irritation. Potential skin sensitizer. Do not get in eyes, on skin or on clothing. Avoid breathing concentrated vapour. Harmful if swallowed or inhaled. Wear a cartridge respirator when handling the concentrate and if the area is not well ventilated when handling the dilute solution. Respiratory protection should also be worn during cleaning, maintenance and repair activities on storage or treatment vessels.

Wear full-face protection (including protective eyewear), coveralls over a long-sleeved shirt and long pants, chemical-resistant gauntlet gloves, chemical-resistant apron and chemical-resistant boots when handling the concentrate or dilute solution and during cleaning, maintenance and repair activities. In addition, a respirator is required for workers applying copper products by brush.

Do not use or store near open flame or spark, or in areas subject to excessive heat.

KEEP OUT OF REACH OF CHILDREN AND ANIMALS.

## ENVIRONMENTAL HAZARDS

Toxic to fish and aquatic organisms. Do not contaminate bodies of water.

## DISPOSAL

1. Triple- or pressure-rinse the empty container. Add the rinsings to the treatment site.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal.
3. Make the empty container unsuitable for further use.
4. Dispose of the container in accordance with provincial requirements.
5. For information on the disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill and for clean-up of spills.

## TOXICOLOGICAL INFORMATION

Contains Copper Naphthenate. Treat as for ingestion of kerosene.

### FIRST AID

If swallowed, call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

If on skin or clothing, take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice.

If inhaled, move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

If in eyes, hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

### NOTICE TO USER

This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.
