ENVIRONMENTAL HAZARDS: This product is toxic to fish and other aquatic organisms. It is not to be used in circumstances that would cause or allow it to enter lakes, streams, ponds, estuaries, oceans or other waters in contravention of federal or provincial regulatory requirements. The requirements of applicable laws should be determined before using the product. Do not contaminate water by cleaning of equipment or disposal of wastes.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.

DIRECTIONS FOR USE:

RECIRCULATING COOLING WATER SYSTEMS:

For effective control of algae, bacteria and fungal slimes in commercial and industrial cooling towers and recirculating systems. Feed at a 0.125 to 2.0 sodium bromide/oxidant mole ratio.

e.g.: (a) 192 g to 3175 g of chlorine gas (99.9%) per litre of sodium bromide solution.

(b) 1.3 to 21 litres sodium hypochlorite (12.5%) available chlorine solution per litre of sodium bromide solution.

Initial Dose: When the system is noticeably fouled, add 0.3 to 24.0 mL of ECLIPSE 632 Microbicide per 1000 litres of system volume and oxidize with either gaseous chlorine (0.959 to 4.793 grams chlorine gas per 1000 litres of system volume) or sodium hypochlorite solution (7.0 to 32.0 mL of 12.5% sodium hypochlorite solution per 1000 litres of system volume).

Subsequent dose: When control is evident, add 0.2 to 24.0 mL of ECLIPSE 632 Microbicide per 1000 litres of system volume and oxidize with either chlorine gas (0.479 to 4.793 grams chlorine gas per 1000 litres of system volume) or sodium hypochlorite solution (3.0 to 32.0 mL of 12.5% sodium hypochlorite solution per 1000 litres of system volume). Feed either before or after the oxidant injection point and ensure rapid mixing of the treated water, ECLIPSE 632 Microbicide and the oxidant.

PRECAUTIONS

KEEP OUT OF REACH OF CHILDREN

Irritation may develop from eye and skin exposure. Avoid contact with eyes. Wear rubber gloves and safety goggles when handling. Wash contaminated clothing before reuse.

FIRST AID:

Eye Contact: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

Skin Contact: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice.

Ingestion: Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION:

Treat symptomatically.

DISPOSAL:

1. Triple-or pressure-rinse the empty container. Add the rinsings to the treatment site.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal.
3. Make the empty container unsuitable for further use.
4. Dispose of the container in accordance with provincial requirements.
5. For information on the disposal of unused, unwanted product, contact the manufacturer or the Provincial Regulatory Agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean up of spills. **DO NOT FLUSH INTO SURFACE STREAMS. INFORM THE PROVINCIAL REGULATORY AGENCY AS IN #4.**
