KEEP OUT OF THE REACH OF CHILDREN

Superior Control product inc  
3715 La Fayette(E) , Boisbriand, Québec,  
Canada, J7H 1S4, 888-689-2171

A soft, sticky material to be applied to window sills, eaves, ledges and roofs, adjacent structures and buildings, to prevent birds from roosting. It is slightly tacky to their feet and this DISCOURAGES THEIR RETURN. It is insoluble in water. Used to keep away birds, including pigeons, sparrows, starlings, sea gulls, including ring-billed, herring and California, and blackbirds, including Brewer's, myna, and crows.

DIRECTIONS FOR USE:

Ensure that surfaces are clean and dry by wiping or scraping all dust, dirt, loose paint and bird droppings. Apply as a straight 10-12 mm bead, 2-3 cm from the edge or along highest point of the surface to be protected such as roofs, window sills, chimneys, cornices and peaks of farm buildings, office buildings and residential buildings. On wide areas, two or more strips may be needed, spaced about 10 cm and applied in a zig-zag pattern. On horizontal surfaces, leave gaps to allow water run-off. To facilitate removal, apply on water proof masking tape or similar material. This cartridge must be used in caulking guns. The repellent may be removed from hands or tools by a petroleum solvent.

DISPOSAL:

Do not reuse empty container. Securely wrap empty container and discard in household garbage.

PRECAUTIONS:

KEEP OUT OF REACH CHILDREN. Keep in original container. Wear chemical-resistant gloves when handling.

ENVIRONMENTAL PRECAUTIONS: Small birds may become fatally entrapped by this tacky repellent. To reduce the hazards to legally protected species, follow all instructions in the Directions for use.

FIRST AID:

If in eyes, hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. If inhaled, move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. If swallowed, call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give liquid to the person. Do not give anything by mouth to an unconscious person. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION:

Treat symptomatically.

NOTICE TO USER:

This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product
