Net Contents 14.7 mL (0.5 fl. oz.)

DIRECTIONS FOR USE: TO TREAT EAR MITES IN DOGS AND CATS.

DO NOT administer by mouth. Cleanse ear thoroughly with a low pH ear cleanser. Apply into each ear sufficient OTOMITE PLUS™ Ear Mite Lotion to wet the external ear canal, approximately at the rates, for each kilogram of bodyweight, of 1 drop (maximum 15) for dogs and 2 drops (maximum 10) for cats. Massage base of ear to spread lotion. Retreat every 3 days. If necessary to reclean the ear canal in less than this time, re-treat. If not improved after 3 treatments or in 9 days, consult a veterinarian. Consult a veterinarian before use on sick, aged, pregnant or nursing animals, or animals receiving drug or other pesticide treatment. Do not use on pets under 12 weeks old. Discontinue use if adverse reaction occurs and consult a veterinarian. For effective control, treatment of the pet should be combined with sanitation of any area used by the pet. Vacuum floors, carpets and furniture (discard vacuum bag after use) and wash the pet's bedding, living quarters and surrounding areas. If pest problems persist, an insecticidal premise treatment may be required. A veterinarian should be consulted when pest infestation continues to be a problem on the pet.

PRECAUTIONS: KEEP OUT OF THE REACH OF CHILDREN. May cause skin irritation. Avoid contact with eyes, skin or clothing. Do not swallow. Avoid contact with pets until dry. Wear rubber gloves when applying or handling this product. After handling or applying, wash hands (or any other skin that came into contact with the product) with soap and water.

FIRST AID – HUMANS: If swallowed: Call a Poison Control Center or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a Poison Control Center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice. Take container, label, or product name and P.C.P. Registration Number with you when seeking medical or veterinary attention.

FIRST AID – PETS: Sensitivities may occur after using ANY pesticide for pets. If signs of sensitivity occur, bathe the pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

Contains petroleum distillate. Vomiting may cause aspiration pneumonia

STORAGE: Store in a closed container.

DISPOSAL: Do not reuse empty container. Wrap container and dispose of empty container with household garbage.

Lot number and expiration date on bottom of container.
