VETOLICE

DIRECTIONS FOR USE:

SHAKE WELL BEFORE USE. **VETOLICE** is ready to use. DO NOT dilute.

Cattle:

For Dairy Cattle, DO NOT use this product in combination with any other permethrin treatment.

For control of biting lice and horn flies on beef cattle and lactating and non-lactating dairy cattle. Apply 15 mL (1/2 fl. oz) per 45 kg (100 lb) body weight up to a maximum of 130 mL (4.4 fl. oz) for one animal. Pour along the back and down the face taking care to avoid the eyes, nose and mouth. Alternatively VETOLICE may be applied to the face with a cloth that is slightly moistened with the product.

DO NOT repeat treatment for at least 14 days. For control of lice, two treatments 14 days apart are recommended. Treatment must only be repeated after 14 days if pest problem persists or reoccurs. DO NOT apply more than 2 applications/animal/year. Leave a one day interval between last application and slaughter.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. HARMFUL IF SWALLOWED.

Avoid prolonged or repeated contact with skin. Wash skin thoroughly with soap and water after contact. Avoid breathing vapours. Use with adequate ventilation. Wear long pants, long-sleeved shirt, chemical-resistant gloves, shoes, and socks during application and clean-up, unless otherwise specified. Remove contaminated clothing and wash separately from household laundry before re-use. Do not use or store near heat or open flames.

ENVIRONMENTAL PRECAUTIONS: Toxic to aquatic organisms, birds, bees and beneficial arthropods. Use with care when applying in areas adjacent to any body of water. Do not contaminate water by cleaning of equipment or disposal of wastes.

FIRST AID: If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. **If swallowed:** Call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give **any** liquid to the person. Do not give anything by mouth to an unconscious person. Take container, label or product name and Pest Control Products Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Skin exposure may cause transient sensations (tingling, burning, itching, numbness). Treat symptomatically. Inducing vomiting as first aid for this slightly toxic substance may result in increased risk of chemical pneumonia or pulmonary oedema caused by aspiration of the hydrocarbon solvent. Vomiting should be induced only under professional supervision. This product contains petroleum distillate.

DISPOSAL: **1.** Follow provincial instructions for any required cleaning of the container prior to its disposal. **2.** Make the empty container unsuitable for further use. **3.** Dispose of the container in accordance with provincial requirements. **4.** For information on disposal of unused, or unwanted products, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

STORAGE: Keep container closed when not in use. Do not store near food or feed. Do not re-use container.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent
