KEEP OUT OF REACH OF CHILDREN**

Fatal if swallowed. Severely irritating to the eyes. Do not get in eyes, on skin or on clothing. Avoid breathing dust. Wear long pants, a long-sleeved shirt, chemical-resistant gloves plus chemical-resistant sleeves, a chemical-resistant apron, and a face shield or goggles during handling. Wash hands and face thoroughly with soap and water after handling and before eating, drinking, smoking or using the toilet. Avoid contamination of feed and food stuffs.

Applicators must not eat, drink, or use tobacco products during those parts of the application process that may expose them to the wood treatment formulation.

Wash thoroughly after skin contact, and before eating, drinking, use of tobacco products, or using restroom. Remove contaminated clothing and wash affected area with soap and water.

This product is toxic to fish and wildlife. Do not apply to wood which is submerged in water or in direct contact with water. Do not contaminate water by cleaning equipment or disposal of wastes.

FIRST AID

If swallowed: Call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

If on skin or clothing: take off contaminated clothing. Rinse skin immediately with plenty of water for 15 – 20 minutes. Call a poison control centre or doctor for treatment advice.

If in eyes: Hold eye open and rinse slowly and gently with water for 15 – 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

DIRECTIONS FOR DECONTAMINATION

When complete roll is used, bury outside wrapper in excavated hole around pole prior to backfilling.

DIRECTIONS FOR USE

Dig around groundline of pole to depth of approximately 50 cm. Remove hardened creosote and rotted wood. Inspect pole as to remaining serviceability. Clean the surface of the pole to be treated. Measure the circumference of the pole. Cut from the roll of Pole Wrap bandage material the length needed. Apply to the pole to the depth of approximately 46 cm below ground line, and 5 cm above groundline. Attach to pole by means of staples or tacks. Be sure bandage is pulled tight to be in close contact with the wood poles. Back fill and tamp the earth around the pole to 5 cm above the original groundline.

Proper use includes the covering of any exposed product above the groundline in areas where children or livestock may come in contact with it. Various products which can be used for this purpose are Pasture Wrap or some other type of barrier which could prevent the product from being removed and consumed. If you have any questions regarding this product, please contact Timber Specialties Co. at (716) 882-5905 and ask for the Product Manager in the Utilities Division.

Do not apply this product to interior of domestic dwellings or farm building. Do not apply to logs for the construction of log homes. Do not apply this product where it may become a component of food, drinking water supplies, or animal feeds. Provide mechanical protection to above ground portions of the treatment formulation or of pole groundline bandages where contact by persons, pets or farm animals may occur.

This product is toxic to fish and wildlife. Do not contaminate water by cleaning of equipment or disposal of wastes. Keep domestic animals away from treated poles.

DO NOT use this product to treat children's playground equipment, picnic tables or other products with food/feed contact surface areas.

DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.

DISPOSAL

DISPOSAL: (1) Thoroughly empty the contents of the container. Follow provincial instructions for any required additional cleaning of the container prior to its disposal.; (2) Follow provincial instructions for any required additional cleaning of the container prior to its disposal; (3) Make the empty container unsuitable for further use; (4) Dispose of the container in accordance with provincial requirements; (5) For information on the disposal of unused product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean up of spills.
