POOLSPORT BROMINATING TABLETS

Weight per Tablet 20 g

PoolSport Brominating Tablets, when used as directed, are effective as a swimming pool water sanitizer and disinfectant.

WARNING: Direct tablet contact may cause bleaching of vinyl or painted pool surfaces. Automatic feeding devices employing these tablets must be totally free from traces of other pool sanitizers to avoid the probability of an explosion.

DIRECTIONS FOR USE:

DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.

1. Maintain recommended daily levels as determined by testing kits.

Free available bromine: 1.0 - 3.0 ppm

pH: 7.2 - 7.8

Total Alkalinity: 100 - 150 ppm
Calcium Hardness: 200 - 300 ppm

If using in automatic feeding device, fill the chamber(s) with tablets and adjust flow rate, according to manufacturer's recommendations, to maintain proper bromine residual. Adding Poolsport Brominating Tablets to the pool's skimmer basket is an alternative method. Daily usage should approximate 25g per 10,000L of pool water. NOTE: Hot weather, heavy pool usage and rain may require higher rates to maintain proper bromine residuals.

Periodic superchlorination of pool water is recommended. Follow label instructions of superchlorination product being employed.

NOTE: For a freshly filled pool, the use of "Mursatt Bromide Pretreat" (as per label directions) will optimize the use of this product.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN.

Poisonous if swallowed. Do not breathe dust. Irritating to nose and throat. It is recommended to wear rubber gloves and goggles when handling the product. Corrosive to the eye and skin. may result in severe chemical burns, DO NOT get in eyes or on skin. Potential skin sensitizer. Wash hands thoroughly after handling. Remove and wash contaminated clothing before reuse.

PHYSICAL AND CHEMICAL HAZARDS:

Strong oxidizing agent. Mix only with water. Use clean dry utensils and equipment. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire and explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with the generation of heat, hazardous gases, and possible fire and explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well-ventilated area. If necessary, flood with large volumes of water.

ENVIRONMENTAL HAZARDS:

This product is toxic to fish. Do not discharge where it will drain into lakes, streams, ponds, or public water.

DISPOSAL:

Rinse container thoroughly before recycling. Do not re-use. For information on disposal of unused, unwanted product, contact the manufacturer or provincial regulatory agency. Contact the manufacturer and the provincial agency in case of a spill, and for clean up of spills.

FIRST AID:

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor immediately for treatment advice. **If On Skin Or Clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call poison control centre or doctor for treatment advice. **If Swallowed:** Call a poison control centre or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person. **If Inhaled:** Move person to fresh air. If person is not breathing call 911 or an ambulance, then give artificial respiration, preferably by mouth to mouth if possible. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION:
Treat symptomatically.
