SERGEANT'S SHOO! DOG AND CAT REPELLENT & TRAINING AID

Sergeant's SHOO! Dog and Cat Repellent & Training Aid should be used in conjunction with training. For both indoor and outdoor situations, the most effective control for a pet is the sharply spoken word backed up with disciplinary action.

DIRECTIONS FOR USE: DO NOT TREAT PETS WITH THIS PRODUCT. Apply only in areas adjacent to buildings. Do not apply in wildlife habitat areas (e.g., parklands, forested lands). Indoors, to break your pet of undesirable habits such as sleeping on furniture, rugs and other forbidden areas in your home, spray the article of furniture, rug, etc. lightly with the repellent so that the area or object is slightly moistened. Shake well before using. Before spraying extensive areas of rugs, fabrics or plastics, test the effect of the repellent by first treating a small, inconspicuous area. The repellent may stain or soften some fabrics or plastics. An alternate method to avoid possible damage is to spray a piece of cloth lightly and place it on the object or area in your home to be protected. Repeat daily, or as necessary, until undesirable habit is broken.

Outdoors, to prevent your pet or stray animals from soiling flower beds, areas of lawn, trees, shrubbery of evergreens, spray the edges of flower beds, tree trunks, the bases of shrubbery and evergreens, patches of lawn, etc. lightly every day or every other day with the repellent. Stray animals are frequently attracted to areas where urine or feces have been deposited. First, remove any droppings, then spray the spot with this masking odour. Re-apply as often as necessary until undesirable habits of your pet or stray animals are changed. Do not apply directly to foliage of shrubs or to ornamental, soft bodied- plants.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Pressurized contents. Do not store at temperatures above 50°C or place container in hot water or near radiator or stove, or where excessive temperatures may be encountered. Do not puncture or incinerate. Do not apply this product in a way that it will contact any person or pet either directly or through drift. Do not allow persons or pets to enter the treated area until the spray has dried. Do not apply to food / feed crops or animals. Avoid contamination of food or foodstuffs. Toxic to fish and other aquatic life. Cover fish aquaria in the vicinity of treatment areas. Toxic to birds. Avoid contact with skin, eyes and clothing. Wear rubber gloves when applying this product by hand. Avoid inhalation of spray. After handling or applying, and before eating or smoking, wash hands (or any other skin that comes into contact with the product) with soap and water.

FIRST AID: HUMANS: If in eyes, hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. If swallowed, call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

PETS: Sensitivities may occur after using ANY pesticide for pets. If signs of sensitivity occur, bathe the pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately. Take container, label or product name and P.C.P. Registration Number with you when seeking medical or veterinary attention.

ENVIRONMENTAL HAZARDS: Do not apply directly to aquatic habitats (such as lakes, rivers, sloughs, ponds, coulees, prairie potholes, creeks, marshes, streams, reservoirs or wetlands) or estuarine/marine habitats. DO NOT contaminate water by cleaning equipment or disposing of wastes.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

STORAGE: Store container in a cool area away from heat and open flames.

DISPOSAL: When container is empty, press valve to release pressure. Dispose of empty container in regular household garbage.
