## **DIRECTIONS FOR USE:**

**Restrictions:** DO NOT apply to any body of water. DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes. Avoid application of this product when winds are gusty. DO NOT contaminate food/feed. DO NOT apply to surfaces that may come into contact with food/feed. DO NOT apply when people or pets are present. DO NOT allow people or pets to enter treated areas until sprays have dried. DO NOT allow spray to drip or allow drift onto non-target surfaces. DO NOT apply to people, animals or sources of electricity. DO NOT apply to furniture (excluding bookcases and storage furniture), mattresses, linens, toys or clothing. DO NOT apply to overhead areas or in confined spaces (e.g., attics, crawlspaces). Ventilate treated areas after application by opening windows and doors or using fans, where required, to aid in the circulation of air. DO NOT apply in areas where plants are grown for food or feed (e.g., vegetables, fruit, herbs). DO NOT apply as a space spray or broadcast application.

The application of this product to vinyl and aluminum siding (particularly lightly coloured, aged, weathered or otherwise damaged) may result in staining, bleaching or discolouration. Factors such as extreme heat and direct sunlight can promote damage. Before applying, treat a small area of the siding and evaluate 30 minutes later to allow any potential staining to occur. Regardless of the test results, do not apply to vinyl or aluminum siding while exposed to direct sunlight or during the heat of the day. This product may stain or damage certain plastic, rubber and asphalt materials such as tiles, floor covering, and carpets. Apply with caution to surfaces and avoid excessive wetting. Do not apply to draperies, tapestries, wallpaper or similar materials that may stain. For all other surfaces, test a small inconspicuous area of the surface to be treated for colour fastness and staining before full application.

**How to apply:** SHAKE WELL BEFORE USING. Apply with attached trigger sprayer. Adjust nozzle to suitable spray pattern. Apply directly to pests if possible. Apply as a crack and crevice or spot treatment only to control ants, bed bugs, carpet beetles, clothes moths, cockroaches, crickets, firebrats, fleas, red flour beetles, rice weevils, silverfish, sowbugs, spiders, and ticks. Spot application is localized to a surface area not more than 0.2 m<sup>2</sup>. Spots are not to be adjoining. The combined area of spots is not to exceed 10% of the total surface area of a room. Crack and crevice is an application directly into narrow openings on the surface of the structure. It does not include the treatment of exposed surfaces. Narrow openings typically occur at expansion joints, utility entry points and along baseboards and mouldings.

## **Instructions - Indoor use:**

To Control Ants, Cockroaches, Crickets, Firebrats, Red Flour Beetles, Rice Weevils, Silverfish, Sowbugs, Spiders: Thoroughly treat inside building surfaces, including cracks, crevices in walls, floors and ceilings, along and behind baseboards, around water pipes and tanks, walls behind and floors beneath appliances (e.g., refrigerators and stoves) and furniture (e.g., shelves, drawers, cabinets and storage units), around sinks, drains and pipes, around garbage containers, around interior foundations, localized areas around garbage cans, localized areas of floors and floor coverings and points of entry (e.g., around windows and doors). For silverfish, also spray the cracks and crevices in bookcases. Remove all objects before treatment of bookcases where books, clothing, toys, towels and other items are stored. Treated bookcases must be dry before

replacing stored items. For ants, also spray trails and nests. Treatment must only be repeated after 7 days if pest problem persists or reoccurs.

To Control Carpet Beetles: Spray edges of carpeting and under carpeting and rugs. Make localized application to floor and baseboards. Spray directly into cracks, crevices and infested areas of shelving. Treatment must only be repeated after 7 days if pest problem persists or reoccurs.

To Control Clothes Moths: Remove all objects before treatment of bookcases, closets or other types of storage furniture where clothing, toys, towels and other items are stored. Remove any infested articles from storage, brush thoroughly and air for several hours in sunlight, if possible. Apply spray to empty chests, closets, bureaus and other storage areas, directing the spray into cracks, joints and crevices. Treated furniture must be dry before replacing stored items. Treatment must only be repeated after 7 days if pest problem persists or reoccurs.

To Control Fleas (Adults and Larvae) And Ticks (Adults and Nymphs): Apply to indoor building surfaces, including cracks and crevices in walls and floors, along and behind baseboards, window and door frames, and localized areas of floor and floor coverings. Pet bedding may be entirely treated with this product and replaced with clean, fresh bedding after other listed areas are treated. Treatment must only be repeated after 7 days if pest problem persists or reoccurs. **DO NOT SPRAY PETS WITH THIS PRODUCT.** Only treat pets with products specifically registered for use on that type of pet. For effective flea and tick control indoors, clean any area used by the pet. Cleaning the areas includes vacuuming floors, carpets, furniture, etc. (discard vacuum bag after use) and washing the pet's bedding, living quarters, and surrounding area.

To Control Bed Bugs: **DO NOT** apply to the mattress, headboard, footboard or furniture. Apply to inside building surfaces including cracks and crevices in the walls, floors and ceilings, along and behind baseboards and mouldings, and localized areas of walls behind and floors beneath furniture (e.g., bed and nightstand). To enhance effectiveness of this product, apply directly to bed bugs where possible. Treatment must only be repeated after 7 days if pest problem persists or reoccurs.

#### **Instructions - Outdoor use:**

To Control Ants, Crickets, Fleas, Sowbugs, Spiders, and Ticks: For use outdoors on the exterior surfaces of buildings and on patios, porches and decks. Apply to the outside surfaces of foundations, under eaves troughs, around light fixtures, and places where listed pests enter (e.g., screens, doors, window frames). This product may also be applied to garbage cans and localized areas of patios, porches and decks. For ants, spray onto ant trails, into ant nests and points of entry. For spiders, apply to the exterior surfaces of buildings and on patios, porches and decks including under eaves, awnings and canopies. Treatment must only be repeated after 14 days if pest problem persists or reoccurs.

**PRECAUTIONS:** KEEP OUT OF REACH OF CHILDREN. Wash thoroughly after handling and before smoking or eating. Remove pets and birds and cover fish aquariums before surface applications.

**ENVIRONMENTAL PRECAUTIONS:** Toxic to aquatic organisms, birds, bees and beneficial insects.

**FIRST AID:** **If in eyes**, hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. **If on skin or clothing**, take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice. **If swallowed**, call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

**TOXICOLOGICAL INFORMATION:** Treat symptomatically.

**DISPOSAL:** Do not reuse empty container. Discard in household garbage.

**For additional product information or in case of emergency, spills or fire, call toll-free 1-800-268-2806. [www.wilsoncontrol.com](http://www.wilsoncontrol.com)**

**GENERAL INFORMATION:** *Permethrin is a synthetic version of pyrethrins. Pyrethrins have long been known for rapid knockdown of insects. Although permethrin is more stable than pyrethrins, it is still degraded by the ultraviolet rays of the sun. This results in a relatively short residual life in the presence of sunlight. When protected from the sun, permethrin will provide residual/long-lasting action.*
