DIRECTIONS: FOR OUTDOOR USE ONLY: To prevent entry of ants, spiders, earwigs, wasps, hornets, silverfish, crickets, millipedes, and centipedes into buildings, spray foundations where they are active and may find entrance (up to a height of 1 metre). Apply as a residual barrier spray to outside surfaces of building(s) where insects tend to congregate or enter. Hold can approximately 1 metre from surface to be sprayed. Evenly spray screens, window frames, door frames, eaves, porches, patios, garages and garbage areas to thoroughly wet. Hold can as upright as possible while spraying. For best results, spray when air is calm. Spray with wind if breeze is blowing. Avoid direct spraying on vegetation. Avoid excessive wetting of asphalt materials. Can also be used on Wasp & Hornet nests. Stand 2 to 4 m from the nest and spray until nest is thoroughly wet, hitting resting wasps or hornets. Do not spray directly overhead. Best time to spray is early morning or evening. Not a space spray, do not spray insects while they are flying.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Harmful or fatal if swallowed. Harmful if inhaled or absorbed through the skin. Do not directly spray toward face. Avoid breathing spray mist. Avoid contact with skin, eyes or clothing. Do not smoke while using. Do not apply to humans, pets or contaminate feed, foodstuffs, dishes or utensils. Wash hands thoroughly after use. **CONTENTS UNDER PRESSURE.** Do not place in hot water or near radiators, stoves or other sources of heat. Do not puncture or incinerate container or store at temperatures over 50 deg. C. This product is toxic to fish and aquatic invertebrates. Do not apply to, allow drift or dispose of product in lakes, rivers, streams or ponds. Direct treatment or residues of this product are highly toxic to bees. Applications should be timed to provide the maximum possible interval between treatment and the next period of bee activity.

FIRST AID: If on skin or clothing, take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice. **If in eyes,** hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. **If swallowed,** call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. **If inhaled,** move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

DISPOSAL: When empty press button to release pressure, wrap and dispose of in household garbage.

GUARANTEE: Permethrin 0.21%, Tetramethrin 0.21%. REG. NO. 27332 P.C.P. ACT. Questions? Comments? Call 1-800-558-5566 or write Helen Johnson. www.bugfreeliving.com ©Can. Trade
