### Raid® Roach Baits

Raid® Roach Baits are so advanced they kill cockroaches where they breed, helping you to rid your home of cockroaches for up to three months. Raid® Roach Bait(s) may be placed anywhere you've seen cockroaches, even in cabinets. Raid® Roach Baits are guaranteed to work for even severe bug infestations.

For maximum effectiveness, use all 12 baits at one time and replace every three months.

**DIRECTIONS:** For thorough cockroach control, use all 12 baits at one time. To keep cockroaches from returning, replace all baits every three months.

1. Separate bait stations from plastic frame. Baits are supplied with peel-off tape to secure to surfaces. Avoid wallpaper or painted surfaces that may be damaged when replacing baits.
2. For thorough cockroach control, all 12 baits must be used at one time. Place 10 baits in the kitchen and 2 in each bathroom. FOR LARGER KITCHENS or HEAVY INFESTATIONS, we strongly recommend using additional baits and placing at least 12-15 baits in the kitchen and 2-4 in each bathroom. If you see cockroaches in other areas, such as the bedroom or utility room, use 2-4 additional baits.
3. For best results, place the baits next to the wall along baseboards, in corners, under sinks, in cabinets and near plumbing fixtures.
4. Baits work best on horizontal surfaces touching corners and walls.
5. Cockroaches will begin eating the bait and you should expect to see fewer cockroaches within days.
6. Replace ALL baits every three months to keep cockroaches from returning.

**DISPOSAL:** Do not re-use empty container. Wrap container and place in garbage.

**PRECAUTIONS:** KEEP OUT OF REACH OF CHILDREN. Do not remove bait from station. Avoid contamination of food and feed. Do not place directly over food, utensils, dishes or food preparation surfaces.

**FIRST AID:** If swallowed, call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

**TOXICOLOGICAL INFORMATION:** Treat symptomatically.
