Potential Skin Sensitizer

DANGER

Corrosive Poison

For Industrial Use Only as a Preservative for Latex Emulsions, Aqueous Based Paints and Metal Working Fluids.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. CORROSIVE. Causes eye damage and severe skin burns. Do not get in eyes, on skin or on clothing. Wear goggles or face shield, coveralls over long sleeved shirt and long pants, chemical resistant gloves, socks and chemical resistant footwear during mixing, loading, clean up and repair. Harmful or fatal if swallowed. Avoid contamination of food. Do not reuse container.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not contaminate lakes, streams, ponds, rivers, estuaries, oceans, or public waters by direct application, cleaning of container and equipment or disposal of wastes.

DIRECTIONS FOR USE: It is recommended that compatibility be checked in the individual formulations. Typical applications and suggested concentrations are:

Aqueous Product to be Protected:	Amount of NIPACIDE BIT 20 (Based on Total Weight of Product)
Latex Emulsions	0.03 - 0.075%
Aqueous Based Paints	0.03 - 0.25%
Metal Working Fluids	0.015 - 0.25%

For latex emulsions and aqueous based paints, NIPACIDE BIT 20 Liquid industrial microbiocide is to be used as an in can preservative during storage and as a preservative during the manufacturing process. It is not for post manufacture protection.

FIRST AID: In case of skin or clothing contact, take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice. In case of eye contact, hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. If inhaled, move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to mouth, if possible. Call a poison control centre or doctor for further treatment advice. If swallowed, call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be required.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.

DISPOSAL:

1. Triple- or pressure-rinse the empty container. Add the rinsings to the treatment site.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal.
3. Make the empty container unsuitable for further use.
4. Dispose of the container in accordance with provincial requirements.
5. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.
