DIRECTIONS FOR USE

To be used only in the manufacturing of antimicrobial products registered under the *Pest Control Products Act* or products exempt from registration under Schedule II of the *Pest Control Products Act*. Manufacturer is responsible for their own registrations.

PRECAUTIONS. DANGER: PREVENT ACCESS BY UNAUTHORIZED PERSONNEL.

- 1) Dangerous gas formed when mixed with acid.
- 2) Do not mix with any other chemical.
- 3) CORROSIVE to the eye and the skin. DO NOT get in eyes, on skin and clothing.
- 4) Harmful if swallowed.
- 5) Harmful if inhaled. Avoid breathing vapour or mist.
- 6) Wear goggles or a face shield, chemical-resistant gloves, long pants, a long sleeved shirt, shoes and socks when handling this product.
- 7) Immediately remove contaminated clothing and wash before reuse.
- 8) Wash thoroughly after handling.
- 9) Avoid contamination of food.
- 10) Keep container closed and store in upright position in a cool dark location.
- 11) This product does not fear freezing.

FIRST AID:

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: call IMMEDIATELY a poison control center or doctor for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING: Remove contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Signs or symptoms of overexposure: difficult breathing, irritation of the airways, nausea, vomiting, irritation or burns of the skin or eyes. Administer symptomatic treatment.

STORAGE: Keep container tightly closed. Store in a cool, dry place away from light, sun rays and any source of heat to avoid deterioration of the product and away from food or feed. The gel does not affect the product. Due to its rapid decomposition, this product should be used in the year following its manufacture. The product should be tested to verify the available chlorine content if storage time is in doubt.

DISPOSAL:

- 1) Triple or pressure-rinse the empty container. Add the rinsing to the treatment site.
- 2) Follow provincial instructions for any required additional cleaning of the container prior to its disposal.
- 3) Make the empty container unsuitable for further use.
- 4) Dispose of the container in accordance with provincial requirements.
- 5) For information on the disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill and for the clean-up of spills.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and other aquatic organisms. DO NOT discharge effluent containing this product into sewer systems, lakes, streams, ponds, estuaries, oceans, or other waters. It is not to be used in circumstances that would cause or allow it to enter lakes, streams, ponds, estuaries, oceans or other waters in contravention of federal or provincial regulatory requirements. The requirements of applicable laws should be determined before using the product.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label.
