2019-03-15

This product has been cancelled effective as of 29 September 2023. Manufacturing and importing of the product are no longer permitted. The existing stocks in Canada are authorized under paragraph 21(5)(a) of the Pest Control Products Act for depletion for a limited time according to the phase-out schedule listed in the Pesticide Product Information Database (<https://pesticide-registry.canada.ca>).

NALCO NALCON 7616

**A WETTABLE POWDER THAT INHIBITS AND CONTROLS
GROWTH OF SLIME-FORMING BACTERIA AND FUNGI
IN PULP AND PAPER MILLS**

COMMERCIAL

**DANGER POISON
DANGER – CORROSIVE TO EYES
DANGER SKIN IRRITANT
POTENTIAL SKIN SENSITIZER
SALE OF INDIVIDUAL WATER SOLUBLE BAGS IS PROHIBITED.**

READ LABEL BEFORE USING

KEEP OUT OF REACH OF CHILDREN

ACTIVE INGREDIENT:

DAZOMET97.00%

REGISTRATION NO.: 14647
PEST CONTROL PRODUCTS ACT

DIRECTIONS FOR USE:

The material is packaged in premeasured water soluble bags for accurate additions and ease in handling.

DO NOT discharge effluent containing this product or the biocide produced into lakes, streams, ponds, estuaries, oceans or other waters unless the effluent has been detoxified by suitable means.

DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.

As this product is not registered for the control of pests in aquatic systems, DO NOT use to control aquatic pests.

NOTE: Products containing this chemical are not to be used in food packaging materials or in areas where food is stored, handled, or processed.

FOR PRESERVATION OF SLURRIES AND HIGH VISCOSITY SUSPENSIONS (COATINGS, CLAY SLURRIES, GLUES, ADHESIVES)

DOSAGE: Nalcon 7616 is effective as a preservative at use levels of 0.01-0.05%. The exact amount necessary for the preservation of any given formulation will depend on the components, storage time and temperature, etc., and can best be determined by actual test.

METHOD OF ADDITION: For preservation of slurries and high viscosity suspensions the material should be added at a point in the processing where there will be sufficient time and agitation for good dispersion.

FOR BACTERIAL AND FUNGAL SLIME CONTROL IN PULP AND PAPER MILL SYSTEMS

DOSAGE: Nalcon 7616 in concentrations of 10-50 ppm will inhibit the growth of slime forming bacteria and fungi in pulp and paper mill systems. Nalcon 7616 should be added to the stock system at a point where there will be good agitation and time for dispersion at a rate 90-400g/10, 000L of treated water. Each mill system varies considerably as to the amount of Nalcon 7616 required. Under severe conditions, lower dosages approaching 50 ppm should be used. Under less severe conditions, lower dosages approaching 10 ppm should be used.

METHOD OF ADDITION: For slime control, Nalcon 7616 should be added at the beaters or as far back in the system as possible to allow time for dispersion.

PRECAUTIONS:

KEEP OUT OF REACH OF CHILDREN. DANGER.

Fatal or Poisonous if swallowed or absorbed through the skin. DO NOT get on skin or on clothing. Harmful if inhaled. Avoid inhaling/breathing vapour or sprays. CORROSIVE to the eye and to skin. DO NOT get in eyes or on skin. Potential skin sensitizer.

Avoid breathing dust.

For the use in pulp and paper:

Use with adequate ventilation. DO NOT apply the product in open systems.

Wear coveralls over a long-sleeved shirt and long pants, shoes plus socks, chemical-resistant gloves, and protective eyewear during mixing, loading, application and all other handling activities.

For all other antimicrobial uses:

Wear a long-sleeved shirt and long pants, shoes plus socks, chemical-resistant gloves, and protective eyewear or faceshield during mixing, loading, application and all other handling activities

Handler Use Precautions:

Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Avoid touching eyes and face until you have washed your hands.

If pesticide comes in contact with skin or clothing follow First Aid measures.

Discard clothing and/or personal protective equipment that has been heavily contaminated with this product. Do not reuse.

Store, use, repair or replace, and wash personal protective equipment according to site health and safety procedures.

Avoid touching 'clean' surfaces while wearing personal protective equipment (for example: door handles, counter tops), or thoroughly clean these surfaces afterwards with water and detergent. Wash the outside of the gloves before removing.

FIRST AID:

If Swallowed: Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

In Case of Contact with Eyes: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

In Case of Contact with Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice.

Take container, label, or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION:

Treat symptomatically.

ENVIRONMENTAL PRECAUTIONS:

Toxic to aquatic organisms

STORAGE:

To prevent contamination store this product away from food or feed.

DISPOSAL:

Porta-Feed System: 1. Close valve. 2. Arrange for return of Porta-Feed.

For Other Containers: 1. Triple – or pressure - rinse the emptied container thoroughly and add the rinsings to the treatment site. 2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal. 3. Make the empty container unsuitable for further use. 4. Dispose of the container in accordance with provincial requirements. 5. For information on the disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

NOTICE TO USER:

This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label.
