HAZARDS TO HUMANS AND DOMESTIC ANIMALS

KEEP OUT OF REACH OF CHILDREN. Avoid prolonged inhalation. Do not touch lit end. Do not place on flammable surfaces.

FIRST AID: If irritation or other adverse skin effects develop, wash affected area with soap and water immediately. Seek medical attention if symptoms persist. **If in eyes:** remove contact lenses, and flush eyes with water for 15 minutes. **If inhaled:** if person is not breathing, give artificial respiration.

Take container, label or product name and P.C.P. Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

STORAGE: Store in original container.

DISPOSAL: Do not reuse container. Securely wrap container in several layers of newspaper and discard in household trash.

PRECAUTIONS: **KEEP OUT OF REACH OF CHILDREN.** Do not use in restaurants. Cover exposed foods to avoid contamination. Do not touch lit end. Do not place in direct contact with flammable surfaces. Avoid prolonged inhalation.

DIRECTIONS FOR USE: Areas such as backyards, patios, decks, etc. which are sheltered from effects of wind are more easily protected by sticks. Remove Cutter Mosquito Repellent Stick from box. Ignite wick until it flames. Invert to further ignite body of Cutter Mosquito Repellent Stick. When this occurs, blow out flame. It will now burn without flame and create a smoke to kill mosquitoes. Place bottom of stick end into ground. Place Cutter Mosquito Repellent Stick about every 3-3.5 metres apart. To extinguish gently knock off glowing tip and extinguish tip into dirt or sand.

NOTE: If cracks appear in body of sticks, this is normal and in no way impedes its effectiveness.
