## **DIRECTIONS FOR USE:**

**APPLICATION DIRECTIONS:** For turf grass of approximately 2.5 cm (1”) in height, apply 13 L/ha of **undiluted** Avigon 14.5. Dilute Avigon 14.5 according to the DILUTION DIRECTIONS prior to application to turf. Spray evenly on area to be protected to provide thorough coverage and allow material to dry before permitting human activity on the treated areas. Do not mow treated area for as long as possible after treatment. Repeat after 3 days if warranted by Canada goose activity.

**DILUTION DIRECTIONS:** Make sure spray equipment is clean before mixing. Shake or stir Avigon 14.5 container well prior to diluting. Mix Avigon 14.5 with water at a ratio of 1 part product to 19 parts water. For example, mix 1 litre of product with 19 litres of water to make 20 litres of spray mixture. Mix product outside or in a ventilated area.

**Field sprayer application:** DO NOT apply during periods of dead calm. Avoid application of this product when winds are gusty. DO NOT apply with spray droplets smaller than the American Society of Agricultural Engineers (ASAE) fine classification. Boom height must be 60 cm or less above the crop or ground. DO NOT apply using aerial application equipment. As this product is not registered for control of pests in aquatic systems, DO NOT use to control aquatic pests. DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.

**USE RESTRICTIONS:** This product may be used to repel Canada geese from golf courses and municipal parks. Do not apply to residential lawns or recreational areas of parks. This product must be applied using appropriate spray equipment, such as a pump sprayer or a power-blast sprayer. Do not apply when grass is wet or rain is expected or below freezing. Avoid direct exposure of honey bees to this product. Do not apply this product in the vicinity of hives.

**PRECAUTIONS:** KEEP OUT OF REACH OF CHILDREN. Wash thoroughly with soap and water after handling. For terrestrial uses; do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment, wash water or rinsate. When handling, wear goggles or face shield, and dust/mist filtering respirator (MSHA/NIOSH approval number prefix TC-21C). Apply only when the potential drift to areas of human habitation or areas of human activity such as houses, cottages, schools and recreational areas is minimal. Take into consideration wind speed, wind direction, temperature inversions, application equipment and sprayer settings.

**ENVIRONMENTAL PRECAUTIONS:** To reduce runoff from treated areas into aquatic habitats, avoid application to areas with a moderate to steep slope, compact soil, or clay. Avoid application when heavy rain is forecast. Contamination of aquatic areas as a result of runoff may be reduced by including a vegetative strip between the treated area and the edge of the water body.

**STORAGE:** Store only in original container, in a dry place inaccessible to children, pets and domestic animals. Store apart from pesticides, fertilizers, food or feed that may cause cross-contamination from odour. Keep container closed when not in use. Store above 0 Celsius – Do not freeze.

**EMERGENCY TELEPHONE NUMBER:** All hours, (613) 787-5620 ONLY for health and environmental information.

**FIRST AID:**

If in eyes: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

If swallowed: Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

**TOXICOLOGICAL INFORMATION:** There is no specific antidote for this product. Apply symptomatic therapy.

**DISPOSAL:**

- 1) Triple- or pressure-rinse the emptied container. Add the rinsing to the spray mixture in the tank.
- 2) Follow provincial instructions for any required additional cleaning of the container prior to its disposal.
- 3) Make the empty container unsuitable for further use.
- 4) Dispose of the container in accordance with provincial requirements.
- 5) For information on the disposal of unused, unwanted product, contact the manufacturer or provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

**NOTICE TO USER:** This pest control product is to be used only in accordance with the directions on the label. It is an offense under the *PEST CONTROL PRODUCTS ACT* to use this product in a way that is inconsistent with the directions on the label.
