Manufacturers of Mosquito Shield Insect Repellants

Optional Statement:

- Botanical Insecticide “Pyrethrum”

This insecticide is for use only in an automatic aerosol dispenser which releases 55 mg of insecticide every 15 minutes or which releases 27.5 mg of insecticide every 7-1/2 minutes. The continuous use of this insecticide will reduce flying insect populations (flies, mosquitoes and gnats) within a few hours. One can protect a room up to 170 cubic metres for up to 30 days.

USE AREAS: Restaurants, Food Plants, Hospitals, Food Service Establishments, Lodges, Resorts, Dairies, Horse Stables, Cow Barns and Poultry Houses while they are in operation. Also for use in Meat Processing Plants when not in operation. Use area must have at least 170 cubic metres of free flow air space.

DIRECTIONS: Dispenser must be located 2-3 metres above the floor at a point where air circulation will carry particles throughout the area. Do not install directly over food or food packaging surfaces. To install can, remove protective cap and insert into dispenser.

PRECAUTION: In meat packing plants, only spray when plant is not in operation. No exposed meat products, ingredients or packaging materials to be left in the room. Any treated surface that may contact meat food products should be washed and rinsed thoroughly with potable water after spraying and before re-use.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Contents under pressure. Container may explode if heated. Do not expose to temperatures above 50° C. Do not puncture or incinerate. Do not contaminate food, feed or water. Do not spray over milk or milking equipment. Avoid contact with skin and inhalation of spray mist. Wash after using. Contents are toxic to fish and birds. Do not install directly over polished, plastic, or varnished surfaces. Do not use in nurseries or rooms where infants, ill or aged persons are confined.

DISPOSAL: When container is empty, press valve to release all remaining pressure. Dispose of empty container in accordance with provincial requirements. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for information on the clean-up of spills.

FIRST AID : If in eyes: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice. If swallowed: Call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on this label. It is an offense under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.
