DIRECTIONS FOR USE:

To prevent the establishment of weeds and inhibit plant root growth in industrial / commercial applications sites such as utility substations, pipelines, tank farms and green roof applications.

Use site	Maximum Single Application Rate	Maximum Number of Applications per Year	Minimum Application Interval (day)
Industrial sites (Product formulated as an impregnated fabric)	6 g Cu ₂₊ /m ²	n/a	n/a

Site preparation:

For best results, remove all remnants of existing vegetation or unwanted plant growth. Rake and smooth the soil before installing the fabric.

Installation of the textile fabric (rolls):

Can be installed in the soil vertically, horizontally, or as a surround. Simply install/unroll the material to the desired length and (if necessary) cut using scissors. When overlapping is necessary, we suggest a 10-15 cm (4 to 6 inch) overlap. It is recommended to clean the TEX-R RC6 PRO thoroughly before covering it with any material. The glazed surface of the fabric must be upward and should not be installed facing the ground.

Covering the textile fabric:

Cover Tex-R RC6 PRO textile fabric completely with a 2.5-5 cm (1-2 inch) layer of "sterile" material to protect it against the sun.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Avoid contact with skin and eyes.

Wear chemical-resistant gloves, eye goggles, long pants, a long-sleeved shirt and shoes plus socks during handling, application, and clean-up.

Remove personal protective equipment immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

Remove clothing/personal protective equipment immediately if any treated fabric gets inside. Then wash thoroughly and put on clean clothing.

For cleaning/maintaining personal protective equipment, use detergent and hot water. Keep and wash personal protective equipment separately from other laundry.

Wash hands with soap and water after handling.

Keep out of any body of water; toxic to fish.

2016-3968

ENVIRONMENTAL HAZARDS:

Toxic to fish. DO NOT apply to any body of water.

FIRST AID:

If swallowed: Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control centre or doctor. Do not give anything by mouth to an unconscious person. **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 – 20 minutes. Call a poison control centre or doctor for treatment advice. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15 – 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

DISPOSAL:

1. Make the product unsuitable for further use.
2. Dispose of the product in accordance with provincial requirements.
3. For information on the disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of spill, and for clean-up of spills.

NOTICE TO USER:

This control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.
