#### DIRECTIONS FOR USE

PERMA PLUS prevents algae growth in water. When applied to contaminated pool PERMA PLUS will kill algae gradually (over several days) when applied to a contaminated pool. Initial and subsequent applications of PERMA PLUS is dependent upon the water conditions, amount of algae present and the pool usage.

1. For best results, maintain the recommended pH, Total Alkalinity, Calcium Hardness, chlorine (or other registered disinfectant) and copper levels correctly balanced. Adjust chlorine level to a maximum of 1.5 ppm. Monitor these key water parameters using an adequate test kit.
2. Initial dosage for pool water having no visible algae is 175 ml (200 g) of PERMA PLUS per 10,000 L of pool water. Do not superchlorinate after use of this product.
3. Weekly maintenance dosage of PERMA PLUS should maintain 0.5 to 1 ppm of copper.

DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.

#### WARNING

Staining of pool surfaces may occur due to deposits of copper salts. Excessive levels of copper will increase the probability of occurrence.

#### PRECAUTIONS

KEEP OUT OF REACH OF CHILDREN. Harmful if swallowed. Do not mix with any other chemical, Avoid contact with skin or eyes. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.

#### DISPOSAL:
