PESTS/SITES:

PYOLA INSECT SPRAY will control all stages of aphids, spider mites and whitefly, spittlebugs, adult and nymph stages of thrips, flea beetles, caterpillars, mealybugs, scale insects and sugar ants.

For use on flowering plants such as fuchsia and rose, woody ornamental bushes and trees, herbs, houseplants, apple and other fruit trees and the following vegetables: celery, tomatoes, peppers, peas, lettuce, potatoes, cucumber and related vine products, radishes, onions, asparagus, beans, cabbage and related plants, and squash.

DIRECTIONS FOR USE:

Mix 20 mL concentrate with 1 litre of water. Shake well before each use and stir or shake diluted spray frequently during use. Using hand-held trigger sprayers or backpack sprayers, a fine mist is recommended to provide thorough coverage for upper and lower leaf surfaces, as well as stems where needed. Avoid over-spraying foliage to runoff. Insects must be contacted by spray to be killed.

For scale insects, mealybug, and whitefly, repeat treatment in one week to obtain best control. For other pests, repeat treatment in 1 - 2 weeks if needed. The product may be applied to fruit trees and vegetables up to the day before harvest. Wash produce before consuming. If concerned about sensitivity of unlisted plants (e.g. delicate ferns), test spray a portion of the plant a few days before spraying larger areas. PYOLA INSECT SPRAY may remove the glaucous (blue) bloom on evergreens such as blue spruce.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. May irritate skin and cause skin sensitization responses. Avoid contact with eyes, skin and clothing. Use only in well ventilated areas. Wear gloves when handling this product.

Avoid direct application to ponds, streams and lakes.

TOXICOLOGICAL INFORMATION:

Product may cause eye irritation and may aggravate pre-existing skin conditions. Flush affected area with plenty of water.

FIRST AID:

IF SWALLOWED: Call a poison control centre or doctor immediately for treatment advice.

Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. Take the container label or product name and Pest Control Product Registration Number with you when seeking medical attention.

DISPOSAL:

Do not reuse empty container. Dispose of empty container with household garbage.

NOTICE TO USER:

This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.

OPTIONAL STATEMENTS:

- Contains Canola Oil.
- Shake Well Before Using.
