DIRECTIONS FOR USE

FOR OUTDOOR USE ONLY. Capsaicin sprays have been proven effective in repelling aggressive dogs only when sprayed directly into the face, especially in the eyes or on the nose of the animal. This product is only to be used to deter aggressive dogs that are attacking or about to attack people. DO NOT seek out encounters with dogs. There is no guaranteed method of responding to an aggressive dog encounter because each encounter is unique. This product is a dog attack repellent that may protect users in some unexpected confrontations with these animals but may not be effective in all situations or prevent all injuries. This product must be used only as a last resort. DO NOT use this product against people or non-target animals. READ THIS ENTIRE LABEL BEFORE TAKING THIS PRODUCT INTO AREAS WHERE AGGRESSIVE DOGS MIGHT BE ENCOUNTERED. To ready the unit, turn actuator tab 45 degrees to the ready position. Depress the top of the unit with thumb to actuate the spray. Spray directly at the dog's face. It is important to use short bursts of spray for maximum effectiveness! Refer to and retain brochure for complete label directions.

PRECAUTIONS Do not spray this product on objects or humans.

Contents under pressure. Container may explode if heated. Do not place in hot water or near radiators, stoves or other sources of heat. Do not puncture or incinerate container. Container will become disabled if punctured. Do not store at temperatures over 50° C. Severe irritation to eyes, nose and skin can occur. Avoid contact with skin, eyes, clothing and inhalation of spray. Wash hands before touching eyes or face and prior to using the washroom. Persons with respiratory problems or wearing contact lenses should not use this product. KEEP OUT OF REACH OF CHILDREN. Use of product should be avoided when its temperature falls below -15° C. due to decreased firing range. Follow first aid instructions upon accidental contact. While traveling, do not store in passenger compartment. Contact air carriers concerning transport.

FIRST AID

If swallowed: Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person. If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice. If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. If in eyes: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION

Treat symptomatically.

DO NOT apply to any body of water.

DISPOSAL

Do not puncture or incinerate. Reduce pressure to zero (outdoors, away from any animals or people) prior to disposal in regular household garbage. It is recommended that the aerosol canister be replaced after usage to repel an aggressive dog.

For your safety, please retain brochure and read this information thoroughly before attempting to use this product.

DIRECTIONS FOR USE: FOR OUTDOOR USE ONLY. Capsaicin sprays have been proven effective in repelling aggressive dogs only when sprayed directly into the face, especially in the eyes or on the nose of the animal. This product is only to be used to deter aggressive dogs that are attacking or about to attack people. **DO NOT** seek out encounters with dogs. There is no guaranteed method of responding to an aggressive dog encounter because each encounter is unique. This product is a dog attack repellent that may protect users in some unexpected confrontations with these animals but may not be effective in all situations or prevent all injuries. This product must be used only as a last resort. **DO NOT** use this product against people or non-target animals. **READ THIS ENTIRE LABEL BEFORE TAKING THIS PRODUCT INTO AREAS WHERE AGGRESSIVE DOGS MIGHT BE ENCOUNTERED.** This unit utilizes a patented safety actuator. To ready the unit, turn actuator tab 45 degrees from the safety to the ready position directly over the cut in the main body. Hold the unit upright in either hand so that the spray orifice (top and front of the unit) is facing directly at the dog's face. Depress the top of the unit with your thumb to actuate the spray. A cone shaped spray will discharge from the unit to a range of 3 meters. To stop the spray, release thumb pressure from the top of the unit. It is important to use short bursts of spray for maximum effectiveness! Upon contact, UDAP Dog Deterrent will affect the dog's eyes, respiratory system and mucous membranes resulting in temporary impairment of vision and coughing. Symptoms will subside in about 30-45 minutes.

PRECAUTIONS: Do not spray this product on objects or humans. Contents under pressure. Container may explode if heated. Do not place in hot water or near radiators, stoves or other sources of heat. Do not puncture or incinerate container. Container will become disabled if punctured. Do not store at temperatures over 50° C. Severe irritation to eyes, nose and skin can occur. Avoid contact with skin, eyes, clothing and inhalation of spray. Wash hands before touching eyes or face and prior to using the washroom. Persons with respiratory problems or wearing contact lenses should not use this product. **KEEP OUT OF REACH OF CHILDREN.** Use of product should be avoided when its temperature falls below -15° C. due to decreased firing range. Follow first aid instructions upon accidental contact. While traveling, do not store in passenger compartment. Contact air carriers concerning transport.

FIRST AID: If swallowed: Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person. If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice. If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice. If in eyes: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

DO NOT apply to any body of water.

DISPOSAL: Do not puncture or incinerate. Reduce pressure to zero (outdoors, away from any animals or people) prior to disposal in regular household garbage. It is recommended that the aerosol canister be replaced after usage to repel an aggressive dog.
