DIRECTIONS FOR USE:

Nuosept® 499 Preservative is an effective in-can preservative in the following aqueous compositions.

Application ranges or use concentrations based on the total weight of product are as follows:

USE	Amount* of Nuosept® 499 Preservative based on Total Weight of Product
Latex Emulsions	0.03 to 0.075 %
Aqueous Based Paints	0.03 to 0.25 %
Metal Working Fluids	0.015 to 0.25 %
Aqueous Mineral Slurries	0.04 to 0.25 %

^{*}The optimum amount, within the above range of rates of Nuosept[®] 499 Preservative, that is required for adequate preservation is best determined by actual tests.

PRECAUTIONS:

KEEP OUT OF REACH OF CHILDREN.

CORROSIVE. POTENTIAL SKIN SENSITIZER.

Causes severe eye and skin damage.

Do not get in eyes on skin or on clothing.

Wear goggles or face shield when handling.

Wear a long-sleeved shirt, long pants and chemical-resistant gloves when handling this product.

Harmful or fatal if swallowed.

Avoid contamination of food.

FIRST AID:

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice. Remove and wash contaminated clothing before reuse.

IF SWALLOWED: Call a poison control centre or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

ENVIRONMENTAL HAZARD: This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters. Do not contaminate water by cleaning of equipment or disposing of wastes.

STORAGE:

Store indoors in a cool, dry place. Protect from heat and flame. Keep from freezing.

DISPOSAL:

- 1. Triple- or pressure-rinse the empty container. Add the rinsings to the treatment site.
- 2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal.
- 3. Make the empty container unsuitable for further use.
- 4. Dispose of the container in accordance with provincial requirements.
- 5. For information on disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

NOTICE TO USER:

This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.

This label transcript service is offered by the Pest Management Regulatory Agency to provide efficient searching for label information. This service and this information do not replace the official hard-copy label. The PMRA does not provide any guarantee or assurance that the information obtained through this service is accurate, current or correct, and is therefore not liable for any loss resulting, directly or indirectly, from reliance upon this service.
