**Stall DRY Plus**  
Deodorizer  
WITH ANTIBACTERIAL  
GRANULAR

Stall DRY Plus is composed of a natural blend of diatomaceous earth and montmorillonite clay in a granular form, which has the ability to absorb odours and moisture. Stall DRY Plus contains an antibacterial agent to reduce odours from odour-causing bacteria.

ANTIBACTERIAL ODOUR CONTROL ~ Stall DRY Plus is treated to control odour development from odour-causing bacteria in the bedding.  
DIATOMACEOUS EARTH & MONTMORILLONITE CLAY - Stall Dry Plus controls odours. Stall DRY Plus will absorb liquid and keeps your stall, pen, cage or trailer, drier longer.

SCENTING AGENT ~ Stall DRY Plus has a biodegradable scented agent that is activated when it comes in contact with moisture.

**DIRECTIONS FOR USE:**

Stall DRY Plus can be used with large and small animals.

**Horses & other large animals ~**

For Best Results begin with Initial Application ~

- Apply approximately 2 – 2.5 kg (4 – 5 lb) of Stall DRY Plus to a 9 m<sup>2</sup>(100 ft<sup>2</sup>) area.
- Place suitable bedding over Stall DRY Plus.

**For Daily Freshness ~**

Method 1: Clean manure spots daily. Sprinkle Stall DRY Plus over wet spot. Redistribute or add bedding to desired depth.

Method 2: Apply a handful of Stall DRY Plus on top of wet bedding immediately upon entering stall or area. Allow sprinkled area to sit ~ Stall DRY Plus will work its magic ~ drying the wet bedding.

Remove manured area, sprinkle a handful of Stall DRY Plus on the cleaned area.

Toss and redistribute the sprinkled bedding using muck fork.

Note ~ If the bedding is extremely wet, you may want to remove the excessively wet bedding, prior to applying Stall DRY Plus.

**Rabbits ~**

Apply 2.5 – 5 cm (1 - 2 inches) of Stall DRY Plus evenly in clean tray below cage.

For Daily Freshness ~ Using slotted scoop, sift completely through litter removing manure.

Dispose of in accordance with local waste regulations. Completely clean drop tray as needed.

**Cat litter**

Fill clean litter box with approximately 7.5 cm (3 inches) of Stall DRY Plus.  
Remove solid waste once a day. For extra freshness, stir up litter at night. Completely empty and wash litter box once a month.

**PRECAUTIONS ~**

Pregnant or nursing women and people with a suppressed immune system should note that a parasite found in cat feces can cause toxoplasmosis. They should exercise caution and consult a physician before handling a litter box. Always wash hands thoroughly after preparing or cleaning the litter box. For further information, consult your local public health office.

**DISPOSAL ~**

Dispose of Stall DRY Plus in accordance with local regulations.

**Warning ~**

When used as a cat litter do not flush cat litter in toilets or dispose of it in gutters or storm drains, or any other waste water system. Keep the litter away from food preparation.

**Kennels ~**

Concrete or dirt floors: Sprinkle a light layer of Stall DRY Plus (like a light layer of sugar or salt) throughout the entire kennel. Cover with bedding if desired.  
Remove solid waste daily. Reapply Stall DRY Plus as needed.  
Marked, soiled or heavily wet areas: Sprinkle a handful Stall DRY Plus directly on "marked" area. Let sit, there is no need to remove.

Stall DRY Plus is safe to use on dirt, wood, concrete, metal or rubber surfaces, because it is non-caustic and non-toxic.

**TOXICOLOGICAL INFORMATION:**

Treat symptomatically.

Contents: Montmorillonite, Diatomaceous Earth, Moisture-Activated Scenting Agent
